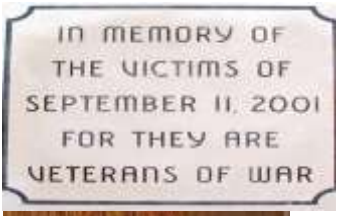
Center Line Warren History

an introduction to the **most comprehensive history of the Warren Michigan Area**, containing thousands of pictures and pages of text. See, Save, or Print at http://do**good**forall.today

Learn from History or repeat mistakes of the past



Freedom Isn't Free. Many paid with their lives or fought for yours. Remember them. Help stop censorship. Promote freedom of speech and of media. Keep informed as there are others who want to take away your freedom. Don't allow them to pass laws that limit free speech such as anti hate speech laws. It seems good but is a ruse that allows anti freedom groups to grow. Insufficient facts invite danger. There is so much misinformation and half truths that it is best to be skeptical. Ask enough questions to get all needed facts. Verify the facts with reliable sources. Actions should be based on factual truth not hearsay or uneducated opinion from obsolete past. Promote the use of scientific knowledge, research and discussion to solve problems rather than violence. Be fair to all. Cause no harm by actions or inaction. Humans are Humane monsters aren't. Make it the law and enforce the law to protect all. Demand responsible behavior from everyone. Our purpose is to help save our history and freedoms for future generations. Help me find and copy old pictures before they are thrown out. And help write down our local history before it is lost. Anyone who knows a story about the past or a family members history or family history will get credit as the source. Send info to wecare@dogoodforall.today More at dogoodforall.today and warrenhistory.us and centerlinewarrenhistory.pictures History lets us learn from the experience of the past. Scientists and engineers learn from the history of experiments to discover what is best. History, practical and useful science and new technology occupations which will not be automated should be taught in schools now. Education must be made a priority because other countries are passing us up and we may become their workforce or slaves.

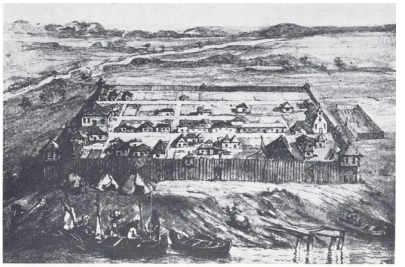
Primitive peoples often made forts to protect their village against attackers as did many other peoples because for thousands of years every so often they were attacked. Today we have ignored the lessons of history and are not prepared to defend our cities.

For millions of years our area was: molten rock, bare rock, part of several continents, on mountains, under oceans, dry desert, under seas, swamps, tundra, jungle, under seas again, under ice over a mile thick, tundra, boreal & decidious forest, inhabited by strange creatures. There were at least 5 extinctions of most life perhaps due to asteroid impacts or gamma bursts. If a clock face showed all of the above it would take all but the last few seconds. Humans arrived about 11,000 years ago. Several Indian peoples lived here and warred here. All of recorded human history is just a mere speck in time. Warren is a tiny speck in Michigan, our Spaceship Earth is just a tiny speck in our solar system, which is just a mere speck our galaxy, which is is just a mere speck the universe. We need to take care of our space ship as it has no life rafts. Also science has proved existence of many more dimensions than the few we know and many are unaware of the space time continuum of which we are a part with everything related and connected. We know little but it is important to learn from history because it has some valuable lessons. See warrenhistory.us for the prehistory of our area and pictures of many strange animals which lived here in the past.

On the top left is what our area looked like for the last 11,000 years. Our area was abundant in plant and animal life.
Top right kidnapped child, her families scalps on stick above. The Indians learned too late that a threat to one is a threat to all and if enemies (like terrorist sympathizers) were allowed to live in your midst that eventually you would regret it. If there is one there may be more in a pack. Wolves and power seekers pack up. The Indians learned to be vigilant for threats because they knew the best way to defeat an enemy was to catch him unprepared by surprise. Today we are unprepared, uninformed and not vigilant.

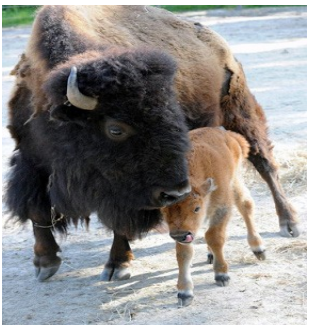
Indians have lived here for at least 11,000 years. These primitive peoples lived at a survival level using tools made from stone, wood, bone and antlers. They hunted, fished, gathered food and materials from the wilderness they lived in. Some planted crops. They were intelligent but did not develop a writing system. Their culture was mainly hunting and warfare. It is fascinating to study about them. There are many interesting books about them with nice drawings. The French settled in Detroit from 1701 to secure the area for their King and to profit from animal furs especially beaver which were made into hats. They lived peacefully with the Indians. However they were at war with the British so they gave the Indians scalping knives and guns to kill and scalp enemies. About 60 years of French rule here came to an end in 1760, when France lost a European war (The French and Indian War) with Britain.

Detroit Forts looked like this drawing.

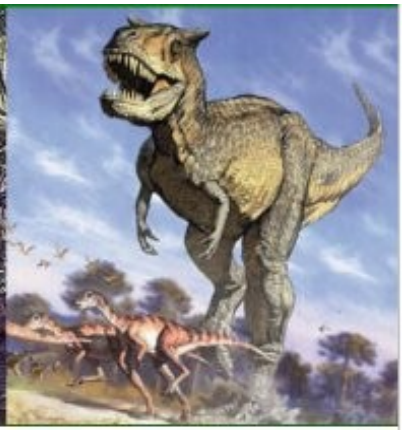


During the 10,000 years before this and until the late 1800s our area abounded in all sorts of animals There were so many birds that the sky would become dark with their flocks. Pigeons were so numerous that they could be

hunted with a stick. Many species of colorful song birds charmed the wilderness with their calls. Swans and geese foraged in the shallows of lakes and streams which had clear pure water. You could see the bottom of Lake St Clair and all of the rivers because the water was so pure. There were herds of deer and buffalo, pigs, turkeys, bear, wolves. foxes, cougars, bob cats, lots of fish and hundreds of other species of animals. The miniature horses, camels, giant sloth, and dinosaurs had died millions of years before in some of the 5 extinctions of life on this planet. (For more info see websites warrenhistory.us or do**good**forall.today)



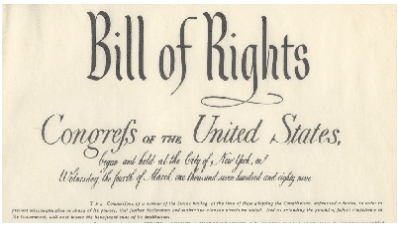
British Rule began in 1760 when they arrived at Detroit. At that time there were 300 houses and 2,000 inhabitants. The British wanted furs and to own N America. They were at war with the French and Americans. They armed the Indians with scalping knives, tomahawks and guns and led them on raiding parties where they killed thousands of Indians and American settlers. From 1775 **Henry Hamilton** was the Lieutenant Governor. He was ordered to encourage Indian raids and massacres against the American frontier settlements. The result was the Indians scalped everyone they could find even corpses they dug up. Thousands of Americans were brutally killed. The British earned the title "The Bloody British" It was a terrible time, many innocents died, and everyone lived in fear.

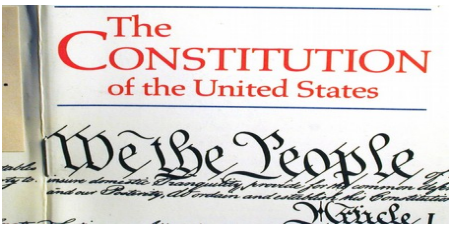


Wolf pack preparing fresh Bison dinner

The Indians were duped by Europeans into killing one another, killing Europeans and later killing American settlers. Thousands of Indians gathered around the Fort at Detroit to get things they could not make on their own from the French and later British. They got paid for scalps with metal knives, whiskey, tomahawks, blankets clothes, guns, metal pots. Soon they abandoned primitive Indian hunting with bow and arrow and became dependent on guns and other European goods. European diseases to which the Indians had no resistance decimated the Indian population. Then the Indians were cheated out of their lands, and repeatedly displaced. They had to turn in their guns and promised lands then evicted from their promised lands. Sometimes even peaceful Indians were murdered by Europeans and Americans. 98 Peaceful Christian Moravian Indians mostly women and children were murdered by Americans just because they were harvesting the corn they planted just North of Warren. Read about it at **http://dogoodforall.today**

To discourage settlers, rumors were spread that the Warren area was as an impassable swamp. The British did not want American settlers coming into our area.

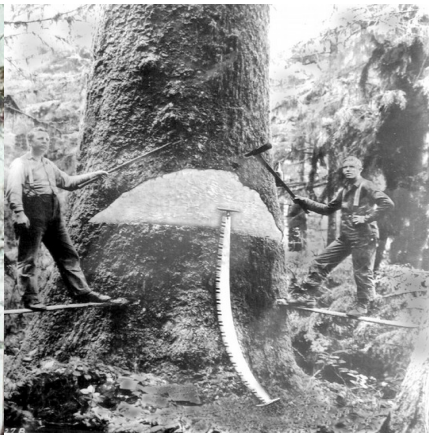




American Revolution

The British taxed and charged interest to the Americans. The bank of England would not let the Americans print their own currency rather they charged interest on use of Bank of England currency. It was a scheme to keep the bankers in England rich. Like the current political system that is making bankers rich now. The British bullied the colonists, enforced unfair laws, invaded homes, interfered with local businesses, taxed drinks and shot citizens. And the Americans rebelled against this tyranny. We fought a war with patriots and farmers as soldiers against a bigger, better armed & trained army and won. But they did not leave here until we beat them again during the war of 1812.

The following is most important! We Americans formed a government of the people, for the people under our **Constitution.** This Government has three branches which counter check each other to stop any one group from gaining too much power. **The Bill of Rights** was approved to give us specific freedoms. First Amendment guarantees the freedom of religion, of speech, of the press, of assembly, and of petition to the government for redress of grievances. Second Amendment gives us the right to bear arms openly; Third Amendment freedom from quartering soldiers in a house without owner's consent; Fourth Amendment protects people against unreasonable search and seizure. No searches without a warrant or probable cause. This is also about privacy that people are supposed to be entitled to have their homes and personal effects private and free from searches. Fifth Amendment no person shall be held for "a capital or otherwise infamous crime" without indictment, be twice put in jeopardy of life or limb for the same offense, be compelled to testify against himself, or "be deprived of life, liberty, or property without due process of law." It also prohibits government from taking private property without "just compensation," Sixth Amendment guarantees the right of speedy and public trial by an impartial jury in all criminal proceedings and the right to have legal counsel for the accused and guarantees that the accused may require witnesses to attend the trial and testify in the presence of the accused. It also guarantees the accused a right to know the charges against him. The seventh Amendment guarantees right of trial by jury in almost all civil cases. 8thAmendment: Excessive bail, fines "cruel and unusual" punishment is prohibited. We need to be alert for threats to our rights and be prepared to defend our freedoms. The Patriot Act and Military Commissions Act took away some of these rights many feel unconstitutionally. The feds now record our phone calls and Internet usage, financial transactions daily and put our pictures, actions, locations, contacts and our private information into big databases. (CBS NEWS) There is also now surveillance of citizens from many cameras in and outside of buildings, parking lots and at almost every intersection. These can put output into face recognition software and your comings and goings can now be tracked and this stored in databases. Tiny RFID chips the size of this **.** ← are being placed in everything so that virtually everything will be trackable.



Joseph Wampler surveyed the territory now known as Warren in 1817. He found a lot of swamp areas, several prairies and the rest was forested. (see his notes) He found the area of Warren Village occupied by a few squatters and some Indians. By 1818 when Macomb County was formed our ancestors had defeated the French, Spanish, British, British bankers and Indians and established a government with rule of law replacing the rule of brute force that had reined for thousands of years. Pioneers could now settle in our area without fear of attacks by Indians. Of course they had to take steps to protect themselves from wolves, big wild cats, bears, bison, and other varmints. There were billions of mosquitoes which not only were a nuisance but also caused ague also known as malaria with its terrible weakness, chills and other debilitating effects. The first settlers arrived by canoe and later by foot. Much later as trails were converted into roads they arrived by horseback, wagon and by stage. The first thing the settler did was locate his land using landmarks and measurements. See list of first land buyers and where they settled in my free "Most Comprehensive" history book. Many were speculators. Eventually real pioneers began reclaiming the land from the wilderness. Settlers had to first make temporary lean-to shelters to protect them from wild animals. They had to secure a source of water then clear land to plant crops. Later they built better and better cabins houses and barns. Gradually the forest wilderness was converted to rough stump farms with log cabins. The main path was the State road (Sherwood) which was part of the first road in Michigan built by wonderful Christian Moravian Indians in 1786.

In 1834 Seven percent of the population died in a month from cholera and other causes. (Silas Farmer p49) With epidemics, often family members were laid side by side in common graves. Often several family members died within a short time. Many people especially children died of conditions we have cures for now. (Even now we need more medical research into the prevention of diseases. Perhaps the pandemic and many deaths in 2020 could have mitigated had we had research.) In 1918-1919 there was a terrible influenza epidemic that killed thousands of persons in Michigan and an estimated 25 million people world wide. There were so many orphans that an orphan asylum was active in Detroit. Over years Warren Union Cemetery probably had hundreds of children put in unmarked graves. Rev Abel Warren settled in north of Warren in 1824. Settlers came from the Eastern United States and many lands. Charles Groesbeck settled in Section 33 in 1830. (on Sherwood near Center Line) Then Charles Rivard in 1831 in Section 35. Louis Groesbeck at the northwest corner of 12 Mile and Mound. The name first used to describe the area was Warren's Circuit or Abe's or Aba's Circuit because there was no formal name for it yet. The Beebe Family settled near the Creek Road that ran along the Red Run (creek) Later planks were laid across the marshy area of Mound south of Creek road and a toll gate run by John L Beebe, to pay for the labor that went into the plank paving. This area became known as Beebe's corners.

Abel Warren enlisted and served his country as a soldier in 1812 holding the rank of Sergeant. He was seriously wounded and taken prisoner at the battle of Queenstown Heights. "Having near death experiences in the war and as a British prisoner made him aware of the value of life." “As a pioneer local preacher, he was abundant in labors, traveling on foot at times twenty-four miles on the Sabbath and preaching three times, after a hard week’s work on the farm, and preaching as regularly as any stationed, preacher, and spending most of the winters in special revival work, in Macomb, St Clair and Oakland Counties, ... thus helping to lay the basis on which rests the magnificent, moral and social superstructure of this beautiful region of country.” From the History of Macomb County. Leeson 1882. Abe had promised God that if he came out of the war alive-

Abel Warren continued from page 11

he would preach the message of Jesus which was Love one Another and to treat others as one would want to be treated himself. He did just that in addition to helping the new settlers solve problems and find resources. Abel Warren had a very pleasant personality. He helped the new settlers, he walked all over the Warren area preaching the Golden Rule and Love and Kindness. Being the first licensed reverend in these parts he married more settlers' children & officiated at more funerals and baptisms and preached at more barn meetings than anyone else. Once while making his way on a trail in the Warren wilderness he encountered a bear on the trail. He prayed for power from God to overcome this adversary. He told the bear to get off of the trail and the bear did. Abel Warren is listed in most history books of Macomb, Oakland, and Lapeer Counties. Historian George Fuller in "Historic Michigan" states Abe was "universally respected and beloved by all classes, and people of all creeds." And so it happened that this war hero became particularly beloved to the early pioneers and was held in very high esteem so much so that the area near the village of Warren was called Abe's circuit or Warren's circuit. The area was later named Aba Township (a mispronunciation of his name) and on March 26, 1839 it was renamed Warren Township. Historian Harold Stilwell favored Abel Warren as the person who Warren Township was named after. The Warren City Council decided in the 1950s to name the city after another Warren who never set foot in Warren and had died 64 years earlier. This person was Dr Joseph Warren born in Roxbury, Mass. 11 June, 1741; died in Charlestown, Mass., 17 June, 1775 in The Battle of Bunker Hill. Both of these Warrens were war heroes, had honorable lives and both deserve to be remembered. But which one was actually the one they named the Township after is not important. We know that the pioneers admired their friend Abel Warren. We are reasonably sure that they for the most part did not even know about Joseph Warren. His name may have been just picked off a list of deserving candidates from the Revolutionary war. So let's honor both of them. So the Warren name honors two great men both named Warren. And it honors a great pioneer family. It is the right thing to do and it is what the pioneers themselves would have wanted.

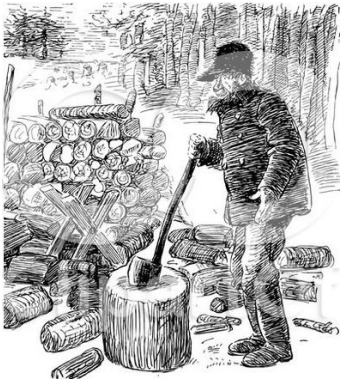
How did the pioneers live? They came with few tools and against terrific odds met with determination what modern people would term impossible problems. Imagine for a moment being left completely on your own in a forest wilderness with no: insect repellent, house or shelter no super markets, restaurants or fast food places, no showers no electricity, no appliances, no telephone, no power saws, no gas heat, no running waters no cars, tractors or trucks, no machines, no radios, TV or entertainment, no canned foods, pop, beer, no paper products, no bottled milk, or other packaged foods, no street lights or even streets, no police, no coffee, no credit cards, no job, no ready made bread, no toilets no toilet paper. Courageous pioneers felled the trees drained wet areas, constructed log cabins, and tilled the land. Cooking had to be done outside until a fireplace could be constructed. All food had to be gathered from wild plants or hunted then butchered outside.

Everything had to come from the wilderness and everything had to be made by hand. Almost everything had to be done outside in the heat, cold, rain or snow and mosquitoes. If a settler had livestock, pens had to be built, trees and brush cleared and crops planted between the stumps. Life for the first settlers was extremely difficult. See who these folks were and where they settled at do**good**forall.today Warren sprouted a Tavern, trading post, distillery, a mill and later other businesses. It has been reported that the main industries in the early days of the village other than farming was making of bricks (Hartzig, Trombly, Grobbel) saw mills, flour and feed mill, and wagon and buggy making. "On April 3, 1837 a number of citizens met at the home of Louis Groesbeck to organize the government of the Township. From that point on we had decent civil government, justices of the peace. There was an armed County Sheriff and judges to enforce laws. It was a wilderness with a few stump farms and dirt trails being improved every day.

Imported English Double Bow Sheep Shears.

EY WILL CUT THE FULL LENGTH OF THE BLADE. SOME SHEARS CUT AT THE HEEL BUT WILL NOT CUT GOOD AT THE POINT. THIS SHEAR IS GUARANTEED TO CUT AS WELL AT THE POINT AS IT DOES AT THE HEEL.

This high grade English shear is made in Sheffield, England The steel used in this double bow shear is the best quality and highest grade razor

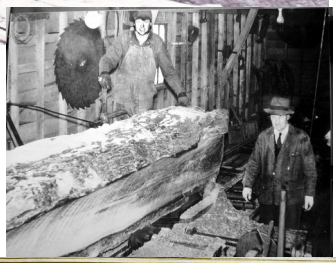


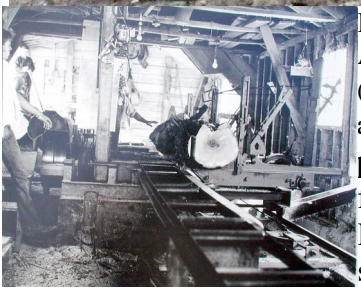
Daily Activities The Diary of an American Farmer in Michigan (on Wes Arnold's free DVD) shows how life was in the late 1800s. It shows: what was done each day, where they went, what the family did, the weather conditions in Michigan, daily happenings, births and deaths that in some cases were not recorded by the government. It is a treasure of daily information of that era. Farm life in was dictated by the season and the weather. There were no weather forecasts. Weather just happened when it did with little or no warning. Winter forced everyone inside a lot more. Much time was spent tending the fire. The chores still had to be done. That meant the animals had to be fed, watered and pens cleaned. Cows had to be milked twice a day. Wood had to be gathered cut in small sections and repairs worked on. A bed canopy caught critters that fell from the ceiling. Winter was a time to do spinning of wool or flax and to do weaving and husking. The family was almost continually busy with things that needed to be done like husking corn, breaking beans, making and repairing things. Trips to the outhouse were not fun in the winter or bad weather or safe at night due to wild animals like wolves and bears. That is why many had a chamber pot. Not used for cooking. Roofs and buildings had to be protected from ice and snow damage. Kids went to school regardless of the weather (part of their job). Spring on the farm was welcome relief from the cold and from being indoors. Repairing the tools plowing and sowing were the big items. Hopefully you had enough seeds to do the job. The boys could get out of school if their dad needed them but often it was hard work. Preparing tools, ground preparation, cleaning, planting, weeding and fixing had to be done. Summer on the farm was in the heat, no school, but lots of mosquitoes. Summer work: weeding, often by hand in the sun and heat, cultivation and hopefully no one got sick. Late June strawberry season and sore backs from picking. July raspberry picking and preserving. Early August corn was ready to be harvested. Late summer was the most difficult time of the year with harvesting work. Often from sunrise to sunset. Fourth of July holiday community picnics, food games, fun, fiddle music singing dancing seeing that favorite girl or boy from other farms. Sometimes romance. Wild berries had to be picked, dried or preserved. Autumn harvest time for beans, potatoes, squash, cabbage, wheat, oats, rye, apples, and other crops.

Husking Bee

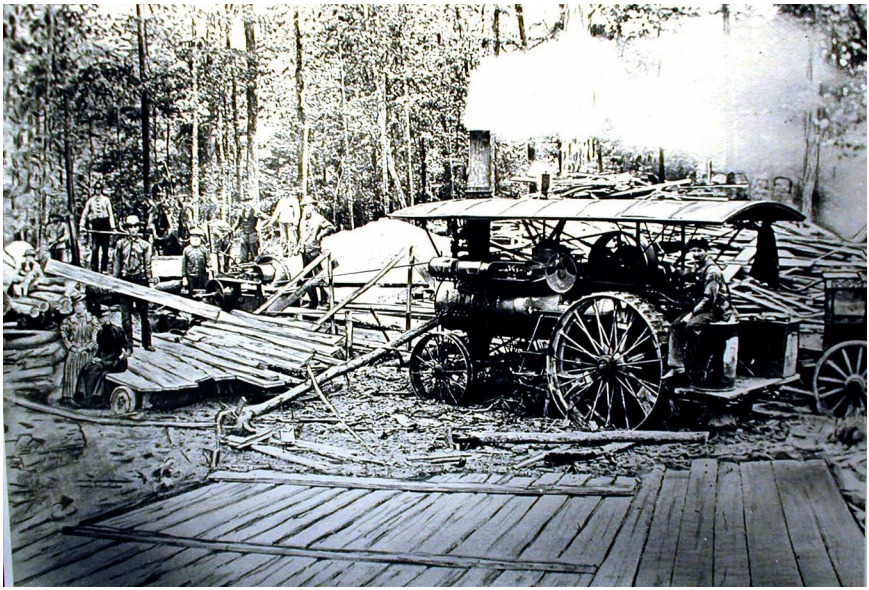
The housewife made preserves, jellies and preserved various foods for the winter. Various crops like potatoes, pumpkins, and apples were stored in the cellar. Corn had to be cut, shocked and husked often everyone had to help. Late fall the children returned to school. The sleighs and snow shoes were prepared for use when the snow hit. There were no snow blowers. Sometimes there were winter community events, ice skating, sledding, spelling bees and social gatherings. Sundays there were church services. Some evenings there were singins, sugar socials, hops, dances. The good of the Good Old Days: In general life was slower paced, less hectic than now. Everyone worked even children had chores. There was in most families (not all) Love and Kindness and cooperation. It was thru cooperation that they survived. American settlers were for the most part "civilized." They had respect for each other and acted toward others as they would want to be treated themselves. We call that the Golden Rule. Children were taught to be responsible for their actions. Everyone had their job to do. Everyone pulled their own weight. Fathers were strict. Boys and sometimes girls who disobeyed were whipped with a willow switch, or spanked on behind but seldom abused. Ask old timers they mostly say the results were better than today. (permissiveness) The Air and Water were Pure. People worked harder physically but were usually happier. There were: singins, barn dances, preachins, barn raising bees, plowin and quilting bees. If you read Daniel Stewart's Diary there was even a farmers traveling band. If you visited a neighbor you would most likely be invited for dinner. Train trips on the old Steam trains; Less pressure and stress; Few if any bills to pay. No telemarketers; Good Hunting with lots of wildlife. Local citizens were aware of what went on in the community and any threats to it. They could and did muster minutemen to defend the community on a few minutes notice. Today many local citizens are unaware, uninformed and many seemingly uncaring about local happenings of community importance and even threats to the community.

As mentioned earlier, Abel Warren had settled just north of Warren in 1824 followed by Charles Groesbeck in 1830. A few other Groesbecks soon followed him. The Groesbeck family had been in the Detroit area during the time the French were in control and owned most of the land on the shore of Lake St Clair to the east. The Groesbecks had a big head start and soon bought and sold land all over Warren. They probably had the first log cabin, the first board house from boards from the first saw mill which was probably owned and operated by them. They also became lawyers and were prominent in township government. The following are pictures of sawmills three appear to have the same children in them so was probably run by the same family. And these were later sawmills as the first ones were sometimes pit mills. A pit was dug and logs were rolled over the pit. Men above and below the log would saw it using big hand saws. Later steam engines speeded up the cutting.





Professor Wesley E. Arnold made the foto (modern spelling) at the left at the Weier saw mill powered by a steam engine in the 1960s. The forested wood lot is still there being used by MCC as a Nature Center. That was Warren's last steam sawmill.



Look ↑ that may be the same children again sitting on wheeled cart. This is what Warren looked like in the 1800s.

Michigan became a State in 1837. At this time Warren was just being settled. Soon saw mills were set up to cut logs into boards which were better for building. A log cabin takes 40-80 logs and a few days to build. A house of boards already cut uses much less wood and takes much less time to construct. No nails were available so holes were bored in the wood and tight fitting wood pins pounded in. I examined some of those 140 years later and they are still holding tight and stronger than puny nails.

The Detroit. Eastern Market was founded in 1841 (our farmers sold produce there.) The population of Warren Township was 249 in 1837, 337 in 1840, and 421 in 1845. The new immigrants were mostly, from New England. Transportation in our area for most of its history was by foot or show shoes or canoe. There were several more creeks then and almost no roads at all. There were foot trails thru the woods. A stage ran from Detroit to Utica brought mail in the late 1830s. Beebe's was about half way. The State Road was located on present day Sherwood road. Mail may have been left at the train station after it was built. It was called Groesbeck station. Research needs to be done on mail and teletype. Some years later a little area near the train stop at what is now Ten mile Road and Sherwood was called Kunrod's corners because this family opened a tavern near there. The so called road was so poor that it probably jousted passengers around and

could be so muddy as to stop travel. This led to a rail road built along State Road running from Detroit to Shelby and Utica about 1838. At first it had wooden rails, poles strapped to logs then later iron rails. The single railroad car was pulled by horses. Later iron straps were placed on top of the wood but these proved dangerous, because in time they would curl up and sometimes pierce the floor of the rail car. Even at ten miles an hour a metal spear suddenly bursting in at you could be deadly. But the rail road even if it was on wood rail was more reliable because stages or wagons would get stuck in the mud or break wheels in the ruts and holes on the rutty pitted dirt tail that was called State Road. Several roads were later covered with planks which in time rotted and the resulting holes broke wheels. Later, gravel was used and was a great improvement. Later cement and asphalt finally gave us fairly smooth roads (when they are regularly maintained.)

After 1840 temporary housing shelters were replaced with better log cabins. Farmers cut down the forests, and broke the tough sod with plows. Horses were not strong enough to break up thick grass prairies. Oxen could do that better. First there were plantings of corn and vegetables planted between girdled trees and tree stumps as the ground was not ready for wheat. These stump farms of the 1830s and 1840s gradually became improved farms with well tilled soil, fences, livestock pens, orchards. Frame houses replaced log cabins. Farms were improved. Rain water was sometimes collected as it was pure. Fireplaces were replaced by much safer stoves which were more efficient, gave out less fumes and sparks which sometimes burned people or set things on fire. The use of horses and other animals for transportation declined after automobiles became affordable.

Wagons were sometimes curved to keep loads from shifting on inclines.

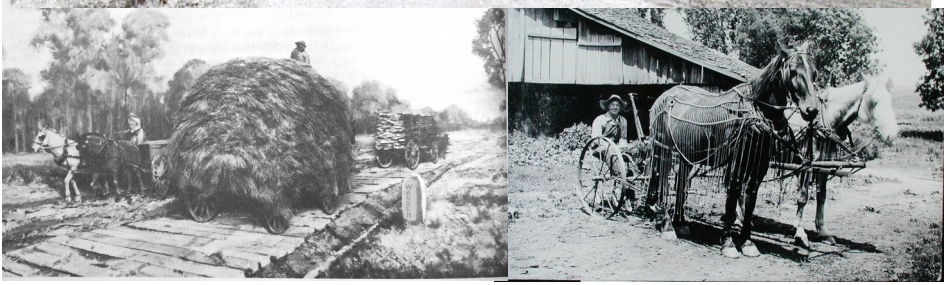
Library of Congress picture [201]

Stewart's

Old time recreation For recreation in these old days there was first of all walking the crops, buggy rides, horse riding, picnics barbecues good wholesome food. Winter sleigh riding, and ice sliding, sledding and skating. Kids made snow forts and had snow ball battles. Bond fire or smaller campfire stories, singing. There was visiting neighbors, barn raisings, house raisings, husking bees threshing parties, singins and social gatherings, often at or sponsored by the local churches, sometimes for young people called hops and sugar socials where young people could meet sometimes resulting in marriages. There were often fiddlers or other musicians, Local farmers daughters married local farmers sons. There were square dances, old time games, foot races, jumping, wrestling, pitching, tug of war, marching and singing games. Contests often included bobbing for apples, pie eating, greased pig, three legged race, potato sack race. There was a little drinking of hard cider often served by politicians at election parties. Sometimes the circus came to a nearby town. People were happy they felt that they were members of a community. They cared for each others welfare, (unlike now where most are alienated) There was a feeling of community a sense of pride and security most families had rifles used against intruders, to get food and for the occasional sheriff posse hunting down a criminal.

Doctors before 1900 had little medical knowledge and few medicines to work with and they were often ineffective. There were no pain pills. There was a Dr William Simonds who often got paid in chickens according to his family which historian Wesley Arnold interviewed. See more about Dr Garrison, Dr John Flynn, Doctor W H Smith and other local doctors and also info on fires, droughts, floods, many notable persons and many other topics on my website. Beebe's settlement grew and was incorporated as Warren Village in 1893. Several merchants set up on Mound at Chicago Road. Later the village had gasoline lamps installed for evening lighting with A.C Lyons as lamplighter. He had married John Beebe's daughter and was also the village clerk just after his brother in law Charles Beebe. There were dozens of merchants over the years. See my archive of Warren area history has a listing of local businesses through the years at do**good**forall.today
Blacksmiths worked with iron and made many things the local folks needed such as: hooks, pot hangers, tools, hardware and horse shoes which horses actually needed to protect their hooves.

In the 1830s and 1840s almost everyone was a farmer or house-keeper. Above is a plowing bee put on by neighbors to help a sick farmer. In the 1800s and early 1900s neighbors often helped each other. They practiced the rule of "Do to others what you would want done to yourself." We called it the Golden Rule. It should be the standard of human conduct. The locals had a sense of community. They were aware of most things going on in their area & often helped when help was needed. There were very few moochers because everyone was expected to earn their own living and sure they might get a meal here or there but little else. Sick or truly disabled were helped usually by their own family. Here is a typical view could be any road prior to 1940. It is actually Bunert.



On a planked road loaded wagons had right of way. Tassels were used to keep horse flies away which upset the horse. Bad!

Bunert near the Bunert-Weier Farm.(below) Steam tractor on road.

Warren Township went from wilderness in 1830 to stump farms in 1840 to improved farms around 1850 where farmers sold their products to Detroit first by wagon then later by truck farming, then followed by industrialization and urbanization in the 1940s. Frank Halsey, was postmaster in Warren around 1910-1915 and during World War One he ran the telephone exchange which was located in the old post office. Fred Gemmill stated Alfred Parks operated a grain and feed mill and cider mill and stated there was a Warren Roller Mill. Fred mentions the Brooks Drug store and the J B Moore building on the South East corner of Mound and Chicago Road which is still there. He stated that Whippers, Nash & Willys-Overland cars were sold there prior to 1927.

Warren Township was nearly all an area of farms until urbanization took over, in the middle1900s. Agriculture was the main occupation and life of the residents. The State road had been planked, stages ran daily, trains ran three times a day and stopped at Ten Mile Road called Warren Station also called Groesbeck Station. There were several brick making companies using local clay.

The men above drove a bayonet through each other. They never met and have nothing against each other. What does killing solve?

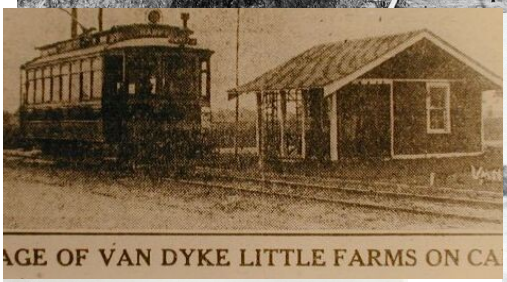
Battle of Gettysburg Penn. 51,000 died thousands laid there in great pain dying for days arms and legs blown off by cannon balls. because there was no help. Using swords to cut into each other as has been done for thousands of years causes pain and death but does not actually solve problems. Diplomacy, discussion, science, mediation, fact finding, research finding answers to problems does work. Humans can use reason to prevent most future wars.

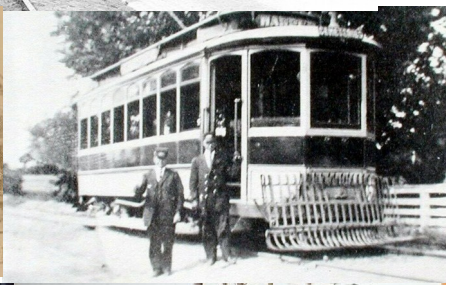
US Civil War 1861-1865 I call it an Uncivil War (but aren't all wars uncivil?) It was an extremely bloody and painful war in which 700,000 died. Over one half of the military age population served in the Union army. 15,000 Michigan soldiers gave their lives to preserve our country. 700,000 deaths could have actually been avoided had intelligent reasoning prevailed. They had not learned from history. The Detroit Free Press called for a negotiated settlement. In 1861 Virginia tried to organize a peace conference to avoid war by finding non violent solutions to the nation's problems. Foolishly these efforts were ignored dooming thousands to horrendous painful deaths.

Joseph Buechel had purchased property from William Groesbeck in 1878. He built and ran a general and drug store at 10 Mile Road on the main state road which was next to the Detroit and Bay City Rail Road. This stage and train stop came to be known as Kunrod's corners because of Kunrod's tavern. This and Spinnings Station in Warren Village were the busiest places in the township. In 1893 Buechel rented an acre of land from Jos Cramer so he could move his store next to St Clement. (picture below) Business shifted from the State Road (Sherwood) to the "Centre" Line Road Van Dyke. Folks were calling the area Center Line because of the road. The interurban (electric trolly) line from Detroit to Ten Mile Road along Van Dyke ran from 1900-1930. This led to a steady stream of new residents who were not farmers with a great increase in population. The area along that strip South of 10 Mile became known as Van Dyke, and with Center Line Village it soon surpassed in population the rest of Warren. Van Dyke Road was improved with gravel in the 1920s. The village paved its roads with gravel and later cement.

Matthias Berger and wife park buggy in front of Buechel House

Van Dyke-8 Mile Road area became known as Base Line. Detroiters easily found housing using the Van Dyke trolly. It proved to be superior transportation. Mass transit today could save us money, fuel, and alleviate driving/parking hassles which would reduce traffic and accidents and free up land for beautiful green areas.

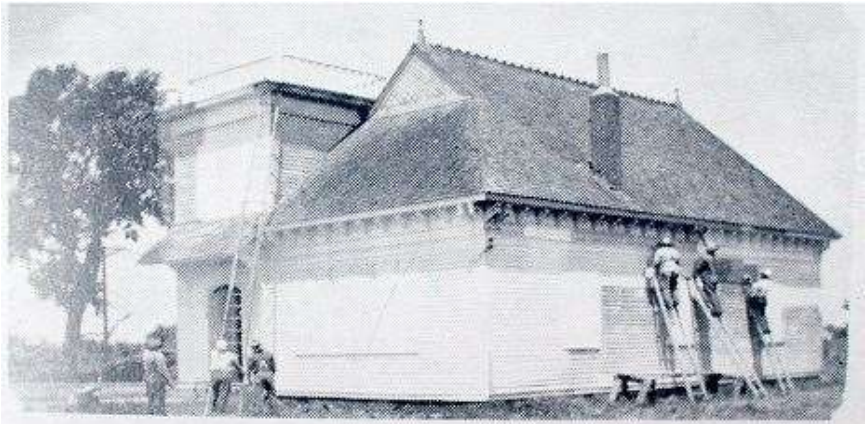




Dirt roads and trails became impassible in wet weather. The cry of "Get a horse!" was heard throughout the land. Big ditches were used to keep roads passable but were dangerous. Ryan at 9 1/2 below. Also the great Peck Store on Mound and Davy (Chicago).

Frank Peck Store 1915. Person in middle is Mrs Frank Peck (Marie). Girl at right is Marion Peck Halmich.

Ben Schmidt famous wood carver's shop was replaced by Clock Cafe. Ben carved out wood decoys that ducks would want to land next to. He scientifically tested them out early in the morning at Belle Isle. Many now still sell for over $1,000.



Warren Township Hall, located directly in the center of the township on the S. E. corner of Van Dyke at the Eleven Mile Road. The old meeting place is here seen getting a new coat of paint around 1920. Not used in the late fifties it was torn down.

I am looking for more old pictures to copy and share.
Help me preserve our local history.

Mound at Chicago Road

Warren Village on Mound Road

Warren Union Cemetery owes most of its beauty to Tom Turmel a volunteer who has labored here since 1997. To weed covered grounds he planted colorful trees, shrubs and flowers. Older cemeteries in Michigan have many unmarked graves often more than surviving stones indicate because many pioneer, pauper, baby and child graves were never marked with an engraved stone. (Still true today) The child & infant mortality rate was high. Before 1917 there were many more child burials than adult burials. Our sister cemetery shows almost 2 child burials per adult burial. Only a small percentage of child deaths were even recorded back then. Pioneers did not have money to buy markers. Most of the pioneer graves are unmarked. This cemetery was mostly filed up before WWII. Families had to go out and buy plots elsewhere. At least ten memorials have been stolen by grave robbers, including some markers I placed there to mark unmarked graves or unreadable stones. (See Macomb Daily July 15. 2011) Also stolen: the only memorial which named Warren area soldiers buried here; and the beautiful Unknown Soldier memorial; and the memorial honoring all veterans and victims killed in attacks on our country; and The Children's and Pioneer Memorial honoring the many who have no marker; and an epitaph stone ripped off of a grave; and one telling what our flag stood for. We veterans feel our soldiers and victims of attacks have been disrespected. The two grave robbers have stolen our soldier's and country's history needed to educate our young people (who are no longer taught our history in school) and the grave robbers dishonored hundreds of children who died painful deaths. Our soldiers fought and died for your freedom and they have stolen the only stone that has their name and our legacy for future generations to see.

CONGRESS WORKED ONLY 126 DAYS LAST YEAR.

THAT MEANS THEY DID NOT WORK ALMOST 2/3 OF THE TIME.

THEIR ANNUAL SALARY STARTS AT $174,000

WHY ARE WE PAYING THEM LIKE THEY ARE DOING 4 FULLTIME JOBS, GIVING THEM FULLY PAID HEALTHCARE, VACATIONS, PENSIONS & MANY OTHER PERKS?

WHY?

Storm is Coming

There was once a time in this country when you could work 40 hours a week, your spouse didn't have to work, and you retired at 60 with a pension.

Today 40 hours a week is barely enough to cover rent and food with dual incomes and you'll likely never retire.

That's the reality of our economy.

EVERY TIME YOU SMILE AT SOMEONE, IT IS AN ACTION OF LOVE, A GIFT TO THAT PERSON, A BEAUTIFUL THING.

MOTHER TERESA

WE HAVE THE RESOURCES TO HAVE GOOD HOUSING FOR EVERY HUMAN. WHY DOES THIS CHILD HAVE TO SLEEP BEHIND A STORE WITH THE RATS.

"The noblest question in the world is What Good may I do in it?"

~

Benjamin Franklin

Some do not prey to God instead brain wash with repeated recitations into submission in cults and by following actions of cult leader. Rejecting normal Golden Rule by putting submission to the cult first.

Mankind first looked at the Sun and Nature for religion. Later they created churches. Religion is a personal choice to think for oneself based on truth or follow uneducated unverified obsolete hearsay. One’s actions follow one’s beliefs and personal thought.

Historian Professor Wesley E. Arnold stated the Classic Ellis School is a Jewell and its top now unused floor could be a good place for nearly free local history storage and archives. Built on property owned by our historic war hero Meyer family and subdivider Ellis gave lots on condition that it be used for education. It is the **most historic** and **last classical** building we have and is paid for and tax exempt. Results of a professional evaluation shows it is sturdy and well built with fireproof double brick walls almost a foot thick, and fireproof, reinforced concrete floors. It has low maintenance as is nearly all brick. Has great classic high ceilings and with Center Line's most historic classic giant Tulip tree. Keeping this classic sturdy historic building is also much less expensive than paying for demolition and reconstructing even a newer lower quality building. It has served as a school to thousands and the 1st floor is presently in use as modern offices of Center Line Public Schools year around. Keeping it and using it would be a win win for all.

Center Line's Historic Classic Jewel Ellis School Research by historian professor Wesley E. Arnold. This well built, sturdy fire proof building has heat coming from the modern offices down the big stairs and has an unused top floor. It has served as a school to thousands of children and 1st floor is presently in use as the offices of Center Line Public Schools year around. There is no other building left in Center Line as classic and historic as this one. A study was professionally done, and the building was found structurally sound.

Who donated land for the Ellis School and who worked and lived on that land for many decades? Our historic War Hero Meyer family did. Spelled Mirer, Meirer, Mayer, Meyers, Myers, Myrer, Hartmayer. Considerable time searching led to facts: that Warren E. Ellis, his wife Mansfield A., and Frank C Everts, his wife Mary of Detroit sold four lots to School District #2 Warren for $1. On condition that they build a school on them. On 16 March 1925. Liber 224 page126. See appendix for copy of deed. But the Ellis family only owned this land for just under a year. This land had belonged to the Meyer Family and it appears according to deeds and maps that they owned this land all the way up to 11 Mile Road and were probably about the third actual deeded landowners. (appears to be since 1843) The first owner was Robert Ramsey who bought it in 1820 from the US Government. Writing on those old deeds is difficult, sometimes impossible to read. Joseph Meyer (born 1850 died 1936 in St Clement Cem.) stated that Christopher Hartmayer (grantee in 1843 Aug 30 is the same as Christopher Hartmiser grantor 1943 Aug 30. Paulette Trembly is same as Hippolite Trembly named in 1947 Oct 12. To John Meyer died in 1857 Dec 26. His widow was Mary Meyer died 1883 May 27 had children Joseph Meyer, Peter Meyer, Elizabeth Max, Gertrude Meyer who became Gertrude Otto, Catherine Theisen (Anna Katherine Theisen). Kate Meyer sister of Joseph Meyer grantor 568 &588 p76. Mother Mary did not remarry. Mary deed 758 p76. Mathias Meyer died 1862 at age 22 a single man. (Wayne Co disp May 1920 3548) Joseph Meyer is grantor in deed from Elizabeth Max 428-90 is Joseph Meyer is John Joseph Meyor. I still need copies of deeds to finish this. There is no access to this information at this present time. It may be that I will not live long enough to complete this research due my old age, health issues and the present pandemic. But at least you have a general history.

War Hero John A Meyer d 1818 in France WWI in St Clement. **Professor Wesley E. Arnold is looking for those who want to save Historic Ellis School. Those who want to help please contact me at wecare@dogoodforall.today.**

St. Clement Cemetery

There was no fire dept for nearly all of the history of our area. Only since the forming of a village was there any fire protection and that was next to useless until water mains with fire hydrants were activated. If the oil lamps or candles used for lighting caught the house or barn on fire all one could do was get out and try to save a few valuables. Everything you had would be destroyed. There were no phones. The Warren Volunteer Fire Dept was organized April 4, 1926. It secured a Model T chassis and equipped it for firefighting. Later a second Model T was equipped with chemicals. Later a Ford V8 truck was added with a 350 gallon tank 2500 feet of hose, ladders, hand extinguishers, axes & suction pump. It was housed in an east addition to the township hall on Beebe Street. The Center Line Fire Dept began in Dec 1925 when the village approved the purchase of a 1926 Ford/ American LaFrance fire engine. These engines had chemical tanks. Later pumps were added to pump water out of cisterns. Telephone service which went to Detroit and then to a small Warren telephone exchange not staffed at night. There was no dialing of numbers everything was done through operator on a party line system which may have 9 or more phones on one line. Often it took over an hour to get the call to the fire chief. Many homes and barns burnt to the ground in minutes before and after fire departments were started. See details at dogoodforall.today Use Index to find things quickly.

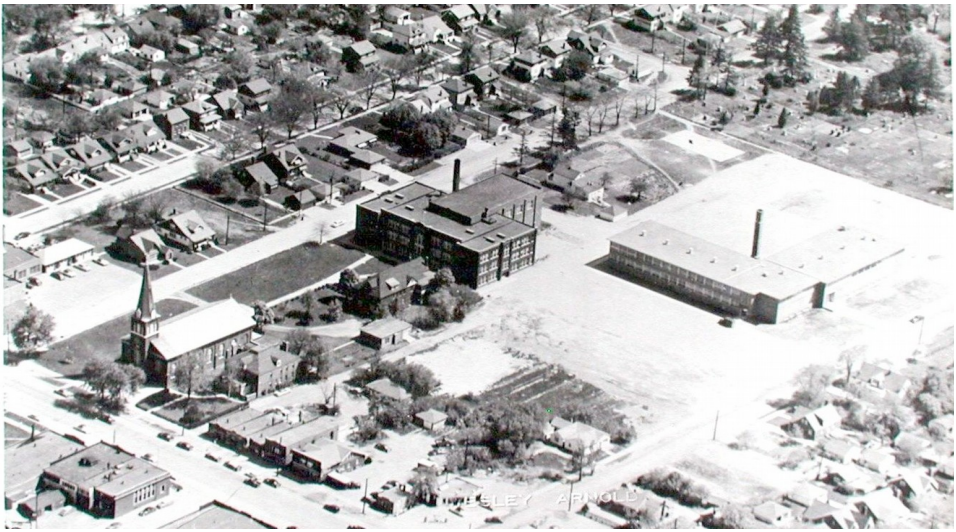
There was no refrigerator. Food had to be stored in closed containers like clay or glass jars, or wood barrels to protect it from insects and rodents. Often food was dried and hung up or buried in the cellar. Some was salted, pickled or canned. Fires were started with flint and steel before matches were available.



Religion has been practiced here for about 11,000 years in many forms. Mostly outside through rituals and ceremonies. European-American settlers brought theirs with them but new forms evolved. Families of similar beliefs sometimes met together in each others barn or cabin. Catholic churches grew out of Detroit as did several others. There was a Methodist church group in Warren before 1850 probably helped along by Abel Warren. The First Methodist Church of Warren was started about 1853 and a log chapel built. This building was replaced in 1857. It is now the oldest structure within the Warren Village area. This church first stood to the east of the Warren Union Cemetery on the side of the Creek Road (Chicago Road). It was moved to its present location at Seventh and Fillmore in 1884. About 1850 a group representing the Warren Township outpost of St Peters Evangelical Church of halfway met in the old Methodist Church across mound Road. In 1864 they organized St Paul Evangelical Church. The current impressive building was built in 1894. It had a steeple that towered 35 feet above the belfry but lightening destroyed the steeple in 1921. Records were kept in German just like the sister church St Clement church that had records in German and Latin. Services were in German until 1935. St Anne began in August 1943. In 1854 the first of four St, Clement churches was built on Van Dyke. The Community Church in Center Line was built in 1924. Now Celtic Cross. The Bethel Methodist Church on Packard in Center Line was built in the 1920's. See do**good**forall.today for much more.

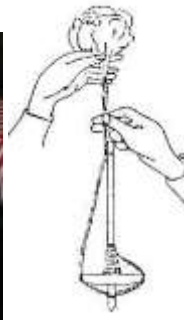
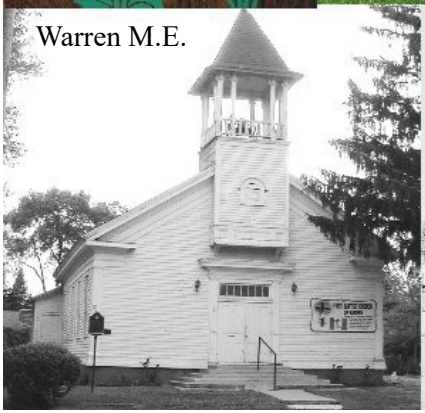
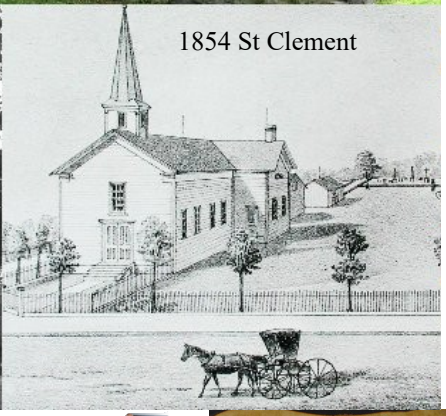


TABLE
LOOM

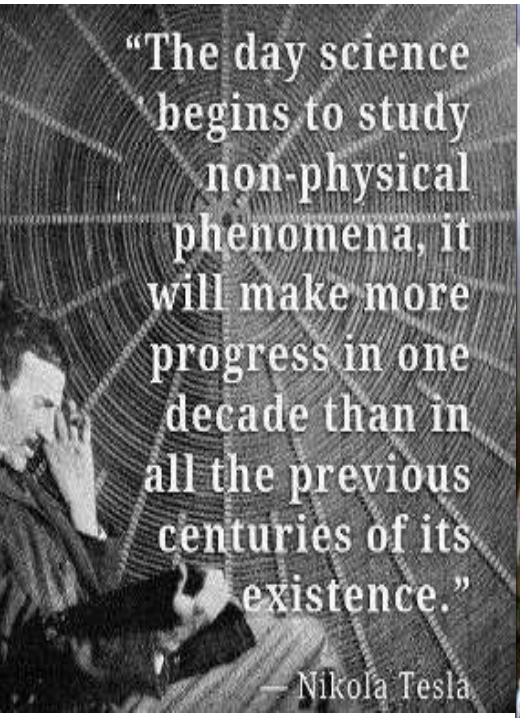
There were no **Police** officers for most of the history of this area. It was rule by brute force. In 1818 when Macomb County was formed an office of sheriff was created. He had under him deputes, justices of the peace and locally elected constables who assisted the Sheriff. In the early 1920s the Sheriff established a Warren branch office with one and sometimes two regular officers and a few special deputies. In April 1927 the Town board appointed Ray Bush as Township Officer to work with the Sheriff's deputies. In 1937 Max Bookout and George Collins were appointed as our first Policemen at $175 per month. Collins was appointed as Warren's first Police Chief. At first they did not even have an office or station. A shed was used as a jail. See much more at do**good**forall.today or on my free DVD. Detroit Edison began putting in electricity in the early 1900s. By 1922 there was a Radio in most homes and 7 Michigan stations. Telephone service began around 1920 but was not in all areas. Sewers were put in. Natural gas service arrived in the late 1920's. In 1928 water service from Detroit was started in Warren. Most of the growth area was in southern Warren south of Eleven Mile road. Center Line wanting a fire department, water and sewers voted to become a village in 1925 and a city in 1936. The area went from rural to urban with a huge growth in population.





First church goers met in log cabins. Churches in Warren were Christian meaning they taught what Jesus of Nazareth taught which was basically the Golden Rule and New commandment shown at right. This had great positive moral value to the community. Confucius, Plato, Socrates, Jesus and other wise thinkers agreed that it was the best way for humans to get along. Don't do to others what you would not want done to yourself. Children were taught to be responsible for their actions and adults were held to that expectation. Everyone pulled his own weight. It was workfare instead of welfare. Which we need today. Fathers supported their wife and children. People were aware of what was going on in their community, and helped neighbors if they needed help. The men were ready and willing to defend their country and did so. The community worked hard to create a better life for all. Ample for all was in fact created over time to a point in the 1950s when it was considered the richest community in the USA. This was largely due to the prosperity, the GM Technical Center, tank plant and tool and die shops.

Halmich Farm on NE corner of 12 Mile and Mound, present site of General Motors Technical Center.



"The day science begins to study non-physical phenomena, it will make more progress in one decade than in all the previous centuries of its existence."
— Nikola Tesla

In just 15 years, only the insanity of Political Correctness could bring us from THIS to...
Right Wing Rants & Raves
"You need to take your flags & crosses down so we don't offend any Muslims!"

Kayla Mueller Humanitarian worker. Search Google see why she is a real hero. The Islamic Pope made her a sex slave and painfully pulled her fingernails out with pliers when she refused to deny her Christian faith.

We veterans who had to deal with them are offended by their killing of thousands of innocent children and people around the world and here in USA. They put suicide vests on children and sent them to us telling them we would give them chocolate. Below are some children killed by Islamic attack at Boston Marathon. "I STOOD UP, I SHOWED UP, I STEPPED FORWARD, I RAISED MY RIGHT HAND, I STOOD IN THE GAP, I WALKED IN THE FIRE, I DID NOT RUN, I DID NOT HIDE, I DID NOT DODGE, I DID NOT EVADE. CONSEQUENTLY... I HAVE NOTHING TO PROVE, NO ONE TO CONVINCE, THOSE WHO MATTER, ALREADY KNOW, THOSE WHO DON'T, NEVER WILL."

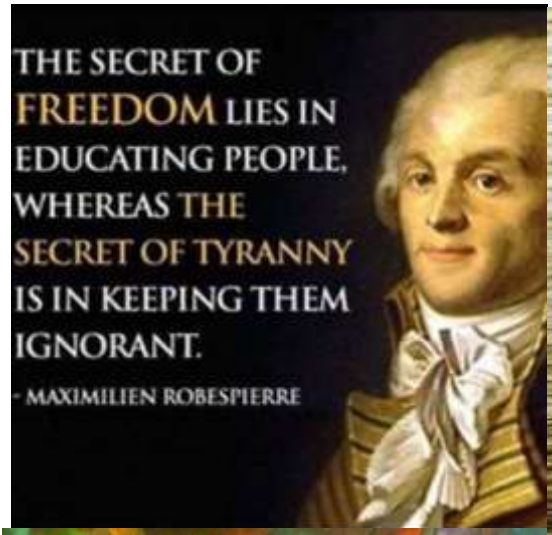
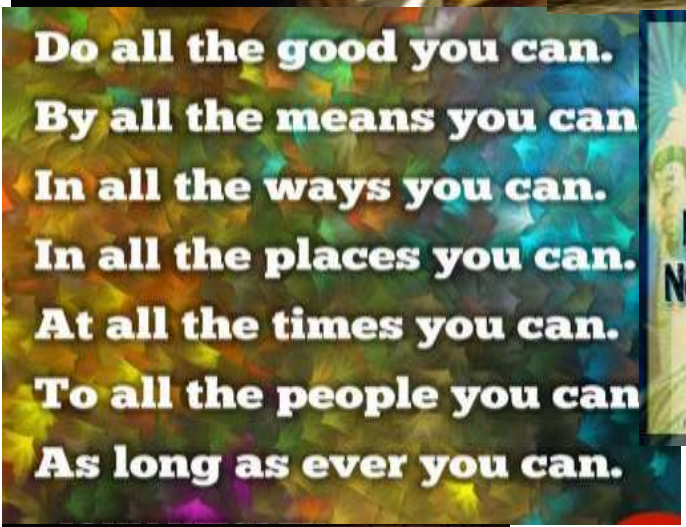
Jihadis have hundreds of times used bombs in crowded public areas because the Quran orders them to slay the nonbelievers and promises they will go to heaven for doing so. See 9-5. 9.111 and many more verses order this killing.

Dorothy Cummings showing me her dads flail.

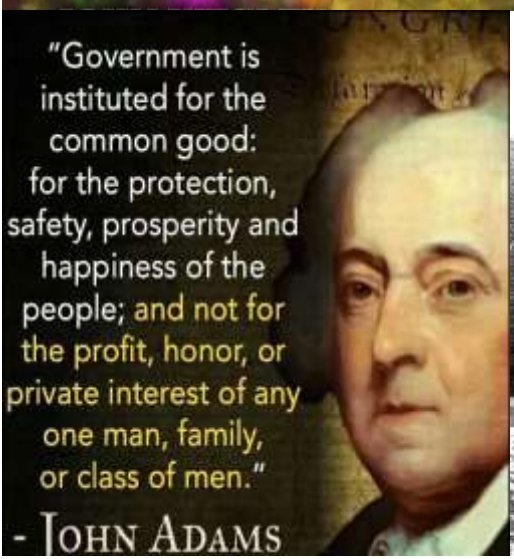
Young's Garden Mart & Christmas Fantasy 27825 Ryan Rd. Began farming in Warren in 1923. Built a greenhouse 1924. Built a retail store here in 1957. Added Christmas Castle1985. They[108] expanded the Christmas decorations adding a Santa Castle making their store into a Christmas Fantasy land complete with Santa hearing children's requests. Over the years it became quite an attraction. Young's Santa Castle was displayed 1985c2007.at Young's Garden Mart and Christmas Fantasy on Ryan N of 11 Mile. The work of installing the heavy plywood castle parts was quite a burden and with the recession was not worth the time and effort so it was discontinued. With 3 ½ acres under glass Young's offers year-round plant bargains and a wonderful place to visit especially for children. They have hundreds of plants in season, garden supplies, hardware, lawnmowers, snow blowers and during the Christmas season they had a huge selection of everything Christmas. Then they had a fire which put them back quite a bit, but the competition with the big box stores did them in. Now Kutchy's produce has moved in. [109]



THE SECRET OF FREEDOM LIES IN EDUCATING PEOPLE. WHEREAS THE SECRET OF TYRANNY IS IN KEEPING THEM IGNORANT.
- MAXIMILIEN ROBESPIERRE



Do all the good you can.
By all the means you can
In all the ways you can.
In all the places you can.
At all the times you can.
To all the people you can
As long as ever you can.



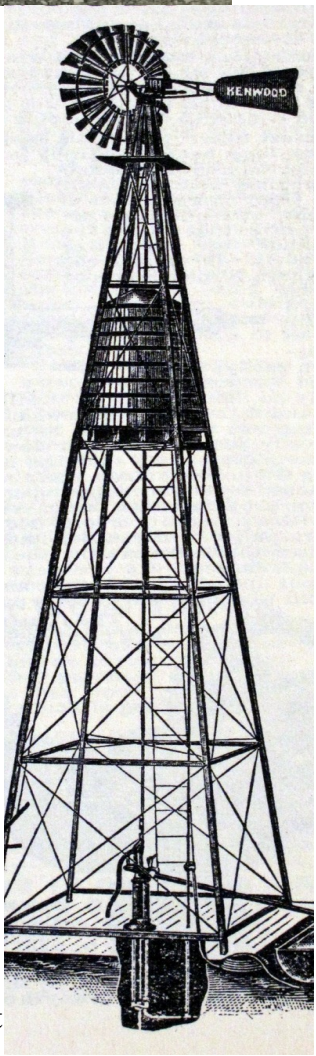
"Government is instituted for the common good: for the protection, safety, prosperity and happiness of the people; and not for the profit, honor, or private interest of any one man, family, or class of men."
- JOHN ADAMS

Dave Garroway 1st TV NEWS with his PEACE sign .

DO YOU REMEMBER THE ICE MAN AND THE MILK MAN?

Most homes had a milk shoot where the milk man left the bottles.. About a foot square it had doors on outside and inside.

Twin Pines and Sealtest milk men also had great chocolate ice cream.



Windmills use free wind power to pump water out of wells and into water tanks or troughs to feed animals. This saved the farmer a lot of work.

Water Biobarb Grown

In 1916 a refrigerator cost $900 then, by 1920 10,000 were sold, by 1925 75,000 were sold. Most people still used an ice box at that time (cabinet that had a compartment where the ice man placed a big block of ice) There was a pan on the floor under the ice box. If you forgot to empty it and you walked up to it at night for a snack you got a rude very cold message from your bare feet. The ice box had benefits. It did not use any electricity and never wore out. Henry Ford experimented and sold several models of cars before the famous introduuction in 1908 of the Model T. Ford's idea was to make a Car for everyone that would be durable, economical to maintain, easy to operate, and simple to repair. The car, had a four cylinder, twenty-horsepower engine that went up to 45 miles per hour. Henry Ford by offering 5 dollars a day, almost double what men were earning in 1914 caused a lot of people to move to Detroit from around the country. In 1908 5,000 were made and sold for $850. Over half a million sold for $369. (Kern46) Over fifteen million Model Ts were sold, making it one of the most important cars in auto history. Some were even used on farms for tractors. After a lot of campaigning women finally won the right to vote. (Michigan in 1918) In 1920 the 19th amendment to the Constitution gave them the right to vote nationally. World War I claimed to be " The War to End All Wars" 1914-1918 Over 65 million people were mobilized, 8 million people killed, 21 million wounded, 7,750,919 POWs. (Military & Civilian War Related Deaths Through Ages) Between April 1917 and November 1918 135,000 Michigan men served; 5,000 died 15,000 wounded. (Kern 48) Our men were gassed with poison gas and had to live in wet cold trenches without beds or shelter. Some of our Warren men were blown apart in France and buried there. These boys had no marker in Warren honoring them so a memorial stone was donated to Warren Union Cemetery. Two known grave robbers stole it. Have not been prosecuted.

For several years after the war things were hard to get. Building slowed down. This war was followed by a great depression from 1929-41 It was largely caused by greedy bankers who put everyday citizens life savings at risk. Then president Herbert Hoover mostly did nothing to help starving, homeless families who had been robbed by the bankers but Hoover made loans to banks. Many wealthy people used this time to build their wealth instead of helping fellow Americans. (and again in 2008 Congress bailed out rich bankers instead of helping families to not louse their homes) The average family was hard hit by the depression. Families had trouble buying necessities such as food because of lack of income which was not their fault. Warren had 60% unemployment per Harold Stilwell. People were glad to get $5 a week. People sold apples on street corners. People had to do without. People did what they had to do to survive. Many were homeless. President Roosevelt instituted many programs that put people back to work with many doing public works jobs so everyone benefited. In 1930 Birdseye marketed frozen foods. Movie industry peaked 1930-45. The Liberty Theater opened in Center Line with a $8,000 organ. Some families still raised chickens, turkeys and rabbits and had their own small crops corn, beans. Onions, berries, vegetables also fruit and nut trees into the 1960s. Doing this would benefit people today. Water quality was good. Local grown food is better and safer and costs less. Chickens eat most anything including insects, table scraps, weeds, and weed seeds. It is a good idea to allow people to raise chickens and other small animals. Fish can be grown in small ponds. All of the above caused no harm and helped people to survive. People learned to be more self sufficient. Wood stoves provided for free cooking, heating and put good use to junk mail. It has been said that a more country environment is better for kids to grow up in rather than just urban. The kids learn how to survive and be more self sufficient. Hostile urban cement, smog, traffic, overcrowding and the increased artificiality of life away from nature and the reality of where food comes from is not as friendly and nourishing as life in the country. Perhaps urban areas could gradually replace vacant buildings and areas with small farms, gardens and parks and become less crowded making them nicer, better, safer, friendlier, cleaner more natural. Solar panels could give free clean power for all and be installed for free by prisoner labor. Everyone would benefit. Electric cars could get free fuel. Free WiFi could be self powered. Win win for all.

Scouts learn to cook,

Make bread on a stick.

Make fire without matches
Find directions by stars.
They learn to survive.

It is barely possible to summarize the happenings of this terrible time in history. There are many books that tell this story and you are urged to do more reading from them. Totalitarian dictators managed to take over several parts of the world because not enough people had learned from history and did to little to stop them. Once in power dictators most often seek more power and force underlings to fight for them. Germany, Italy, Japan, and USSR tried to take over the world doing horrifying unspeakable atrocities to millions of innocent peaceful persons such as starving, raping, stabbing, cutting off body parts, severely cutting peoples abdomens open and leaving them to die in severe pain for days. There is no excuse for humans to treat others with cruelty. We must have a code of human conduct. At first America tried to stay out of this foolishly thinking it would not affect us. They had failed to learn that a threat to one can become a threat to all. But soon we were attacked. The result was World War II 1937-1946. as 404,997 Americans were killed, 15,000 from Michigan (John Kern 57). The Detroit Arsenal in Warren built 36,000 tanks. Hydromatic built ship guns. There was great need for workers at these plants and a big shortage of housing, schools and goods resulting in rationing. Warren became urbanized by the tremendous population growth and industry. We built schools, roads water mains and drains and a sewage treatment plant. The GM Tech Center began in the late 1940s Many industries were started. Most everyone worked hard.

Television broadcasting began March 4, 1947 by WWDT TV to the 2500 TV sets in Detroit area. Almost every family worked and easily bought a car. Social and community alienation began. The number of bars surpassed the number of churches. Crime was low because most everyone worked, pulled their own weight and were raised to be responsible for their actions and they were. But soon people became TV addicts.

WHO ARE THEY TRYING TO KID WHEN THE GOP SAYS WE CAN'T AFFORD TO HELP THE POOR?

The cult followers of Muhammad have killed 270 million people in 1,400 years.

That's 528 people per a day, and 22 people an hour (aprox.)

The causalities of Islam are NINE TIMES more than of Stalin and Hitler COMBINED!

Cemetery

In 1945 the United Nations was formed and since has done many useful things and actually has prevented some wars. At least it is a forum for solving problems. We are just part of it and don't fully control it.
In 1945 the electronic computer was created and became functional. In 1948 a great milestone was the adoption by the UN of the Universal Declaration of Human rights which listed 28 Human Rights and has become the world standard. The problem is still protecting people from those who violate this. Perhaps for worldwide protection we might have to eventually rely on Gorts as humans have failed at this for thousands of years. And the killing and abuse of millions of humans continues into 2020 with no end in sight. A threat to one can be a threat to many.

In the 1950s the US was the world's strongest military power. Employment was high and middle class thrived. But we got involved in a **Korean Civil War** resulting in **54,246 American dead, 1609 from Michigan**. The polio vaccine was invented and tested and given to most Michigan students resulting in the near eradication of polio. Later many other illnesses that had killed millions were eradicated by vaccines. Civil Rights did not make much progress. Between 1960 and 1970 Warren and Center Line population doubled. The conservative patriotic American society began to fall apart. Although TV had been kept decent thru the late 1950s it began to have negative influence on children. TV had a tremendous influence. Most Americans became TV addicts. The mass-pop culture took over and was much influenced by mass media. It appeared to older conservative persons as dumbed-down, consumeristic. Pop music, fads and fashions reigned. Phony values were increasingly drawn from TV causing many persons to be out of touch with reality and unconcerned with serious issues. Many people become uninformed, unconcerned, uncaring. This is exemplified by TV programs such as South Park and The Simpsons. Too many of our citizens are ignorant and uncaring about issues of importance. They are putting our way of life at risk. The pop culture replaced the conservative American culture. Families left more of the child raising to the TV and to schools. Peer groups had an increasing influence. Commercialism set in. There began a great quest to buy material things. This became an end in itself. The drug and pop cultures increased. Family members became alienated from each other and the community. Crime increased along with teen pregnancy and social alienation. Why are there now over 800 barbed wire enclosed, manned 24/7 internment camps across the USA and some in Michigan?
By mid 1962 US "advisers" in Vietnam had exceeded 12,000. Trouble coming. Did we learn anything from the unnecessary killing of Americans in Korea?

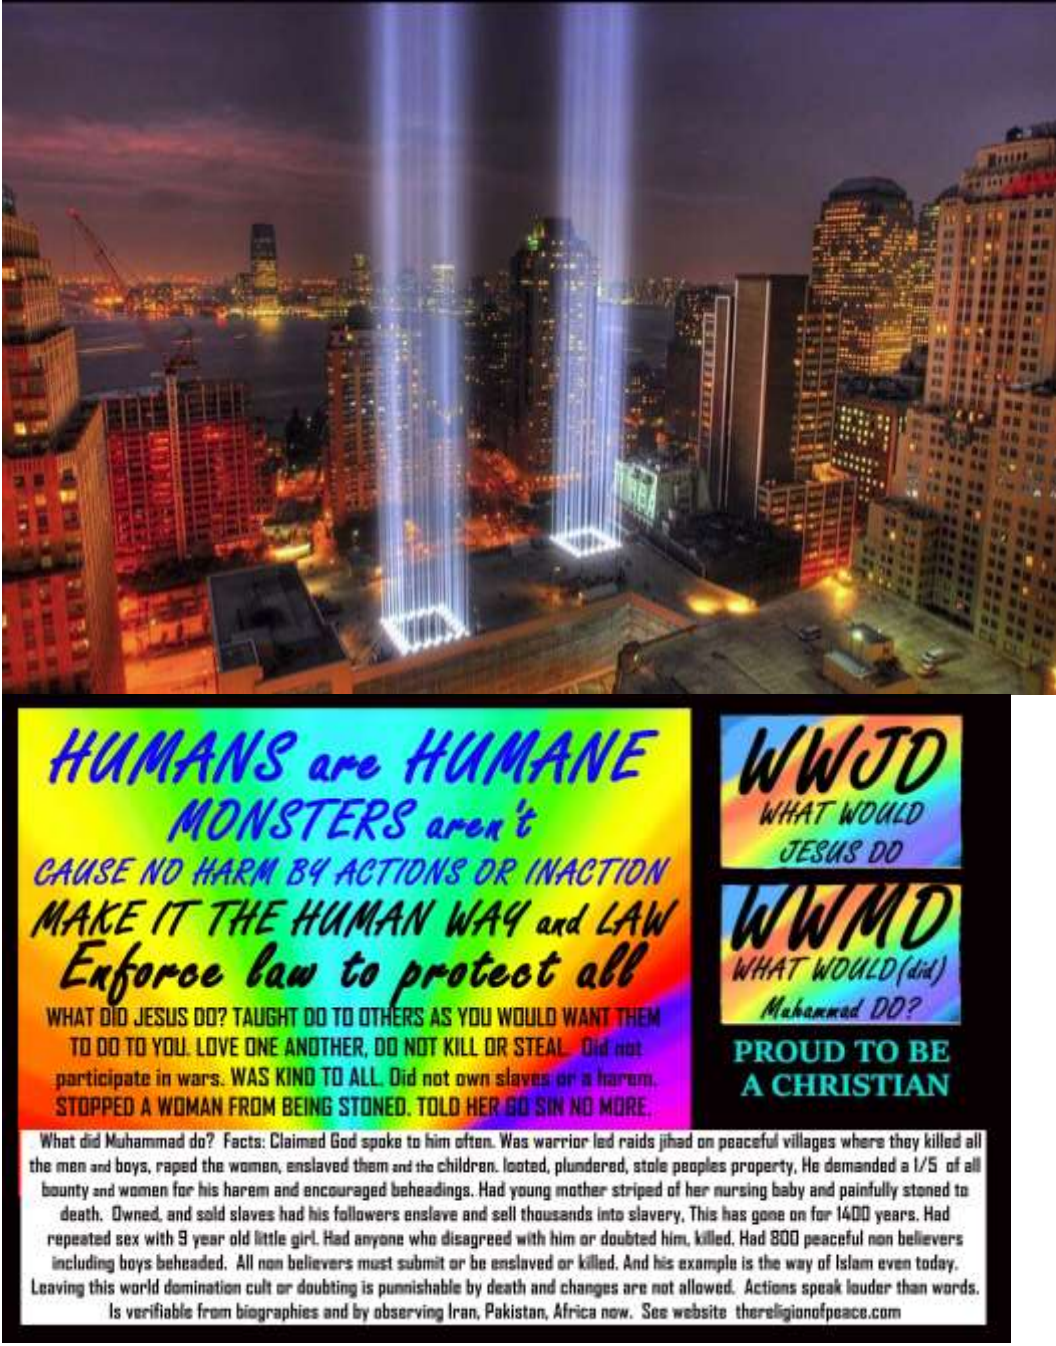
Village Book Exchange on Mound South of Chicago Rd has Thousands of books at bargain prices. Cheryl has been in business located at this very historic spot for 35 years. This was the old Rump farm which was built on the old cranberry marsh off of the planked State Road part of the first Road in Michigan the one built by the Moravian Indians about 1786.

Other sources of Knowledge are public and college libraries, their friends of the library book sales (some of those are in the libraries and Warren has one on Beebe St in the old village hall. Also Internet Archive at **archive.org** has millions of books, audios, videos, images all free. Searching Internet using Google and YouTube have billions of pages.



HUMANS are HUMANE
MONSTERS aren't
CAUSE NO HARM BY ACTIONS OR INACTION
MAKE IT THE HUMAN WAY and LAW
Enforce law to protect all
WHAT DID JESUS DO? TAUGHT DO TO OTHERS AS YOU WOULD WANT THEM TO DO TO YOU. LOVE ONE ANOTHER, DO NOT KILL OR STEAL. Did not participate in wars. WAS KIND TO ALL. Did not own slaves or a harem. STOPPED A WOMAN FROM BEING STONED. TOLD HER GO SIN NO MORE.
WWJD
WHAT WOULD JESUS DO
WWMD
WHAT WOULD (did) Muhammad DO?
PROUD TO BE A CHRISTIAN
What did Muhammad do? Facts: Claimed God spoke to him often. Was warrior led raids jihad on peaceful villages where they killed all the men and boys, raped the women, enslaved them and the children. looted, plundered, stole peoples property, He demanded a 1/5 of all bounty and women for his harem and encouraged beheadings. Had young mother striped of her nursing baby and painfully stoned to death. Owned, and sold slaves had his followers enslave and sell thousands into slavery, This has gone on for 1400 years. Had repeated sex with 9 year old little girl. Had anyone who disagreed with him or doubted him, killed. Had 800 peaceful non believers including boys beheaded. All non believers must submit or be enslaved or killed. And his example is the way of Islam even today. Leaving this world domination cult or doubting is punnishable by death and changes are not allowed. Actions speak louder than words. Is verifiable from biographies and by observing Iran, Pakistan, Africa now. See website thereligionofpeace.com

Warren was Christian from early settlement until present. We believe in and practice the Golden Rule but there is a cult which does not believe in the Golden rule but instead the opposite, jihad to advance the cult by any and all means including killing nonbelievers. For verification just look at life in Middle East and Africa. Visit thereligionofpeace.com

Vietnam War was the longest in our history, 1955-1975, nearly 60,000 Americans died. 7,484 women served in South Vietnam. 2,650 from Michigan died. Many servicemen came back wounded or messed up. Paul G. Hazen Drive was named for a young soldier who was awarded medals for his bravery. He was the son of the mayor.
Again the historian (who served in the army during this time) asks the question didn't we learn anything from history? Was getting involved in a Vietnam Civil War worth even one American life.

This war went on officially or not for around 20 years depending on when you count the start and end dates.
But the real story is in the casualties according to several sources [967] Just the American casualties were over 211,000. For those of us in Center Line and Warren it means that my friends are still dying of Agent Orange exposure. Many have cancer. Many are messed up mentally. Many have PTSD. And the kicker many have already and will commit suicide.

This affects not just the service member but his family and friends. It appears the current war on Islamic terrorists may become our longest war. There is an expression which states There is almost no such thing as an unwounded combat veteran. Based on my experiences and those I served with I agree with that statement.

'YOU'RE A RACIST'

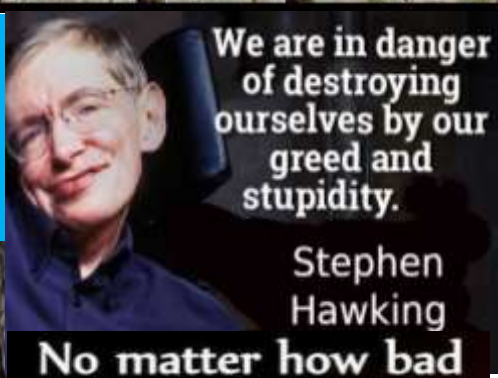
13 YEAR OLD AISHA IBRAHIM DUHULOW WAS STONED TO DEATH IN FRONT OF A HUGE CROWD IN A STADIUM, FOR THE CRIME OF BEING RAPED BY THREE MEN IN SOMALIA

SOME CULTURES TREAT WOMEN LIKE DIRT, AND I DON'T AGREE THAT IT'S WISE TO IMPORT HUNDREDS OF THOUSANDS OF PEOPLE FROM THOSE CULTURES INTO OUR MIDST

IF THAT MAKES ME A RACIST, THEN I WEAR THAT LABEL WITH PRIDE

HAVING A BAD DAY? REMEMBER, YOU AREN'T 6000 MILES FROM HOME, IN 120 DEGREE HEAT, CARRYING 100 POUNDS OF GEAR, IN FULL UNIFORM.

Great minds discuss ideas
Average minds discuss events.
Small minds discuss people.



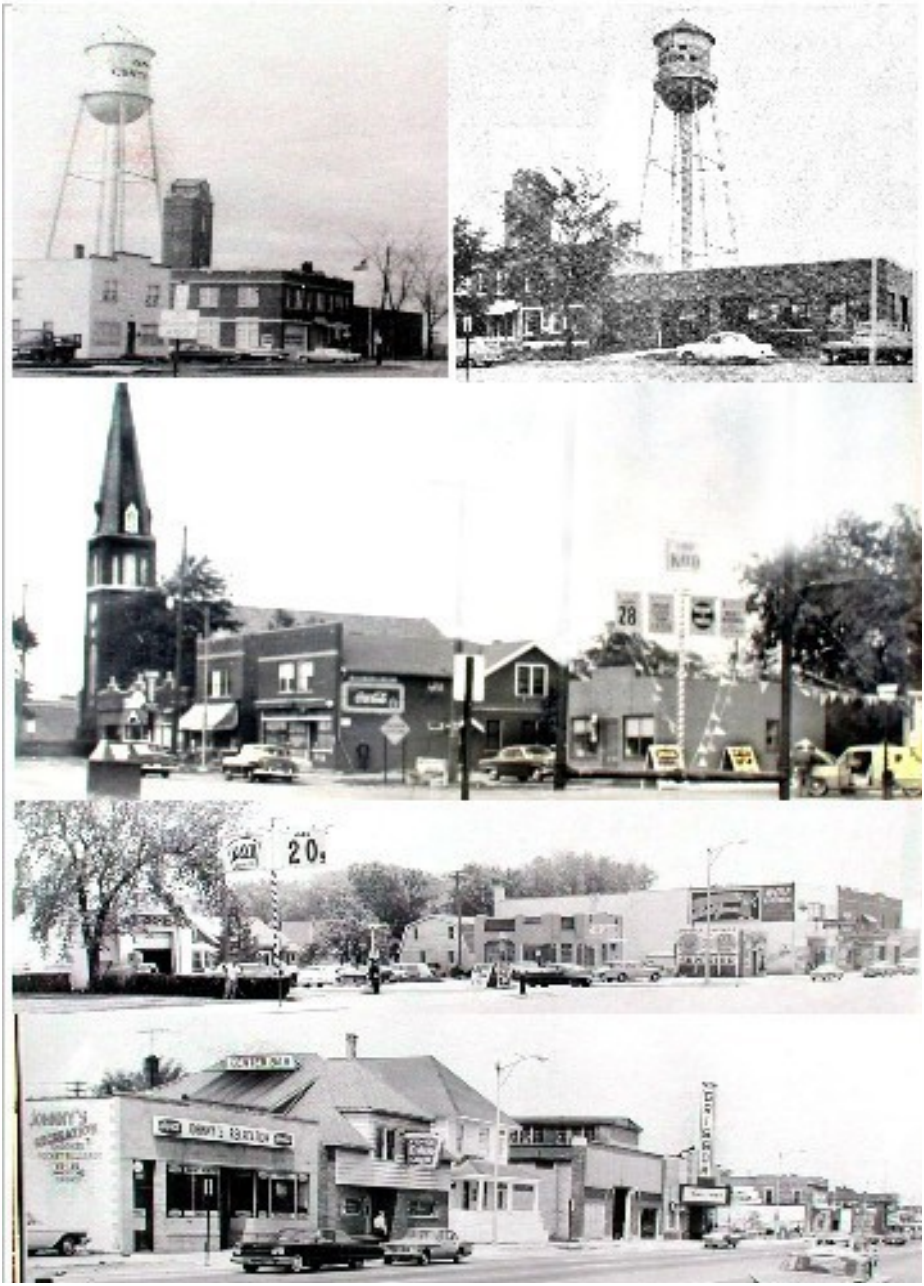
OUR COUNTRY IS CRIPPLED BY A DEBT TO PRIVATE BANKS.

We owe them more money than exists in our entire economy, and they never had that money to loan in the first place.

THE ONLY REASON THIS IS TOLERATED is because the public in general do not know about this.

No matter how bad you think your life, wake up each day and be thankful for what you have. Someone somewhere is fighting just to survive.

Greed is the religion of the billionaire class.



Many Warren workers and families were hurt when corp CEOs and officers paid themselves millions while selling off companies. Officers neglected their duty to their loyal workers. Many families suffered because of this greed. No CEO or other officer of an organization should be allowed to receive more than 10 times the rate of the lowest paid worker.

Language mis-understanding has caused: deaths of 583 persons needlessly in an airplane accident on the ground and hundreds more in other non-understanding caused accidents and hundreds of deaths during medical emergencies also many children have been kidnaped but the police could not understand the mother's language. Thousands of fights and killings happen because people did not understand each other and did not clear up misunderstandings. Even some wars could have been avoided and thousands of lives saved by understanding. HUMANS NEED TO UNDERSTAND EACH OTHER NOW The solution is here. There is an easy to learn international vocabulary that can save lives here and around the world. Humans need to understand each other especially in emergencies. If a woman is trying to tell a doctor that her child drank poison but the doctor doesn't speak her language or tell a policeman that someone took her child, or two gang leaders want to settle a dispute, or a pilot is being told to do something by a traffic controller, or people are being given directions on how to escape from a sinking ship, THEY ALL NEED TO UNDERSTAND EACH OTHER at that moment or LIVES WILL BE LOST. Hundreds of people have died because of language non-understanding. There is an easy solution. In ten minutes a day people can learn an International Vocabulary, even children in elementary grades. Within a month they could have basic understanding. Enough for basic and emergency communication. If you know English you already know over 2000 words in this language. It only has 16 rules of grammar with no exceptions. We could have understanding between all languages within a short time if students would be taught this for 10 minutes a day in school. Thousands of lives could be saved. Every human could understand every other human. For more information Visit http://easiestlanguage.info

Every human could understand every other human.

For more information Visit http://easiestlanguage.info

The easy solution is the easy to learn International Vocabulary Esperanto (no it is not Spanish) you already know 2000 of its words. It has been suppressed by teachers of other languages because it is so easy.

The I696 Freeway across the middle of Warren opened in 1978. Population peaked in Warren at 179,300 1972. In Center Line at 10,400 1972 The 1980 population of Warren was 161,134. Scouting had a beneficial effect on our area from countless good turns and service

projects over the years and continued to train in leadership and survivor skills. Boys and girls benefit from reading the scout handbook at **scouthandbook.info** Every man who was on the moon had been a scout. Min Wage: $3.10 average salary: $15,757 Milk 85 cents 1/2 gallon. Bread Sliced 55 cents. Ground Beef $1.39 per pound. Ham and Cheese Pizza $2.49. Urbanization 1980-2000s continued. Just as in the early 1900 industrialization (growth of industries) and mechanization (machines doing the heavy work) reigned, now automation and greed took over. With the personal computer available for a reasonable price it was used by businesses to improve productivity and to reduce number of workers. Office automation soon took over and thousands of persons were laid off. Computerized manufacturing, outsourcing and off shoring (sending jobs to other countries with cheaper labor) gradually became the norm. Rather than support local families by allowing American workers to support themselves employers found they could make bigger profits by off shoring. CEOs often demanded bigger and bigger salaries. Kmart had a good customer base and solid steady business. But the executives got greedy and kept giving themselves bigger and bigger raises and golden parachutes. Soon the company could no longer make a profit so they used their golden multimillion dollar parashoots to retire to million dollar homes in Florida.

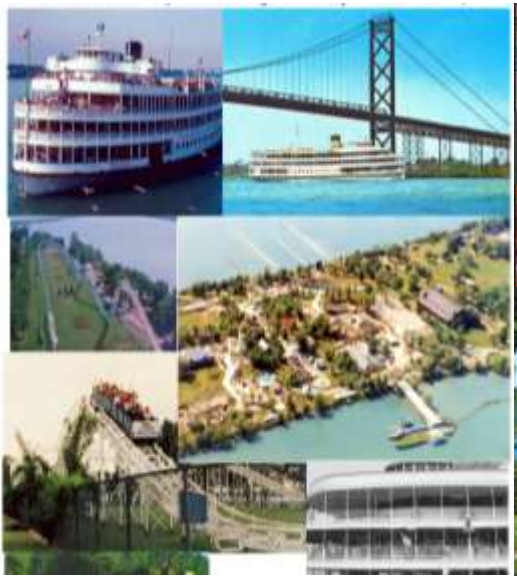
Here is a little free book which is highly recommended especially for young people.
It may actually save lives because it has much useful and practical lifesaving content.
It has experience and advice from experts on people skills and proven success practices.
It can also be printed from the file 251-300.pdf from the above website. It is also available on kindle from amazon.com



Remember the big wonderful steam powered Bob-lo Boats. This is sadly missing in our present day. These were all day or all evening excursions to Bob-Lo Amusement park. There was a band on the boat with dancing. Food was available. One could sit in a chair and watch the scenery go by. The big deep sounding boat whistle would sound. As a kid I loved to watch the huge steam engine. It had huge pistons and other moving parts. You could look way down to the belly of the boat and watch the engineer. And no matter how cold or windy it became on deck the engine area was always warm. Up on the top deck you could see the whistle, the big smoke stack and even watch the captain do his work. On that top deck you felt like you were at the top of the world with a great view for miles. There were huge air scoops and large machinery and huge ropes and a gang plank. At the back of the boat you could look down at the water churned up by the propeller and watch the wake of the boat spread out. We looked way down on to small craft who looked up and everyone waved. Bob-Lo Island had a large amusement park, food areas and nature area. It was just a good fun filled day and very inexpensive. Due to poor management, they stopped running in 1991. The amusement park was torn down and the land sold. The Bob-Lo boats rotted for several years but they have been declared historical sites and are being restored.

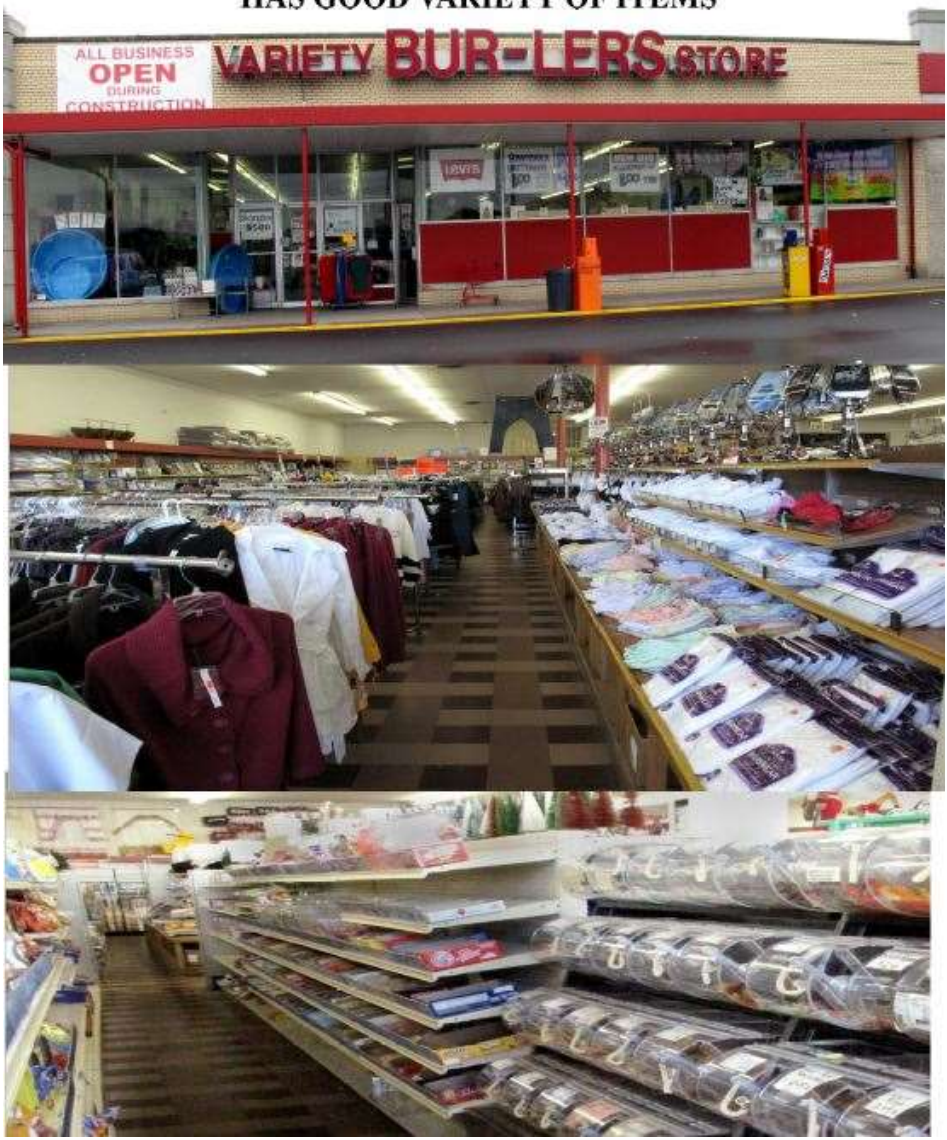
Since 1927 on Van Dyke N of 8 Mile. Since 1960s Dairy Queen, Tastee-Freez, A & W, Big Boy Drive-ins.

A rich history is in stock at Base Line Feed

Rinke since 1917 on Van Dyke.

Other than churches, cities and bars the oldest businesses are: Rinke, Young's Green Houses, Bur-lers, Village Book Exchange, florists, barber shops, Dairy Queen, Tastee-Freez, bowling alleys, undertakers, some private contractors and a few individual businesses.

SINCE THE 1950s RELIABLE OLD FASHIONED STORE HAS GOOD VARIETY OF ITEMS

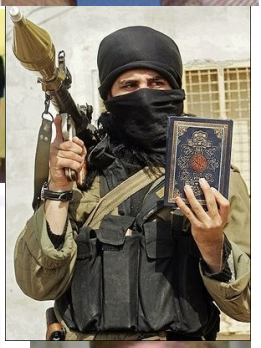


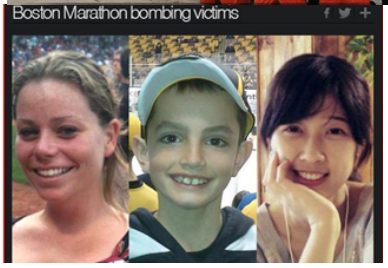
Yes they have 5¢ candy and now fabrics, school supplies, pet food.
They make keys, a variety of things much American made
At 9 Mile East of Ryan in Warren

Soon personal Bots and robots may be doing tasks for us. Such as turning on music (Alexia put on Bach) driving the car, finding information, making calls, mowing and cleaning, watching the kids, teaching and entertaining. Robots can also be companions and pets that show love and kindness and do work for us and perhaps even defend us. Japan already has robots for sale that take this companionship quite a bit further (never gets a headache) if you get my meaning. What? with a machine not me. Hey Roboto! Clean the house, take out the garbage, wash the dishes and car and mow the lawn. The wife and I are going to take a nap. Bots and robots taking over most work may free up humans for a wonderful creative life with endless wonderful possibilities of things to do and enjoy.

The trans-human era is beginning. We already have hip, and eye implants and soon there will be other artificial body parts. Computer chips and medical devices inside the head are already being used to tame Epilepsy and Parkinson's. Soon they will cure blindness and deafness and supplement our sight, memory, hearing and do other things for us. Human life expectancy will increase. Robotic exoskeletons allow humans to lift heavy weights. Robots will become soldiers. Drones will deliver packages perhaps spy on us and go places and take pictures we can't like taking pictures in fires and volcanos.

RFID chips as small as this dot • will allow tracking of everything. In some ways that is good because RFID powder will be sprinkled in foods such as lettuce. If it turns out that there is a problem with it such as food poisoning, all the restaurants can just scan theirs to see if they have the bad batch. This will save lives. It will also enable nurses to see what pills people took. And putting RFID powder in our pills will assure positive identification of medicines. Also wonderful for inventorying of things and great for anti theft because scanners at store doors will be able to discover who is taking what. But because it will be able to identify these dots on credit cards and clothing people wear, they will enable people to be tracked and this data may be fed into corporate or Big Brother's databases. This along with the tracking of all of your Internet use, fone, financial info, locations and more all being recorded just like your driver's license picture is now; and public camera surveillance means an end to privacy. Our robot children may become immortal robots with super AI surpassing humans. Unless humans stop acting foolishly could these intelligent machines take over the planet?





Dan Pearl was a journalist who just went to interview the islamic leader. They cut off his head instead along with many thousands of peaceful people including Christians world wide by Islamists we call jihadis.

Above three children killed by Islamic bomber at Boston Marathon. The young woman above was Kayla Mueller an American humanitarian aid worker who was painfully repeatedly tortured and raped by the Pope of the Islam. (You can verify this on Google) We have lost over 3000 as a result of 9-11 plus over 10,000 Americans killed and 56,0422 wounded by jihadis advancing their cult. There have been thousands of attacks on peaceful people. Everyday more peaceful people are killed by Islamists commanded to kill by their Quran in verses 9-5 and other verses and by the example of Muhammad their cult prophet who they are brainwashed into following by repeated daily multiple recitations. See for yourself visit http://thereligionofpeace.com Verify at https://en.wikipedia.org/wiki/List_of_Islamic_terrorist_attacks

Warren's Oldest Indian and Pioneer Cemetery was used for fill dirt. In the 1800s there were no funeral homes. The body was laid out in the family home. A coffin might be constructed if there were planks available. Many were buried without a casket on the farm as there were few cemeteries around. Families often did not have money to pay for a cemetery lot. Sometimes several family members died within a short time due to scarlet fever, cholera, diphtheria, typhoid fever, small pox, etc. as there was no cures for them back then. A few stones were piled on to mark the spot.

The Bidell-Green Hessell Indian Cemetery preceded all others in Warren area. This was located west of Bunert and North of Martin. Fred Weier told me that his grandma Bunert said that Indians would come there, stay awhile and leave when the sun was in a certain place and he told me of a pioneer who carried his dead child there. I have done research on this cemetery. During construction of Briarwood School a skull and other human bones were discovered. (Per Tri City Progress 4 14-1967) In May of 1969 children playing in the school playground discovered more human remains. The mound was used for fill dirt one homeowner receiving the fill dirt saw human remains and complained. Funeral director William Duross told historian Wesley Arnold that Theuts, Greens, Hessels, and early residents were probably buried there. He removed around 40 remains which were placed in three cement vaults and buried in the Mt Clemens Clinton Grove Cemetery. Mt Olivet opened in 1888, Mt. Elliott in 1841 but to farmers that was a long trek with wagons especially if the weather was bad or in the Winter. The St Clement Cemetery was just for Catholics. Before 1930 there were many more child burials than adults. A big problem with older cemeteries was that records were not kept or maintained or backed up.

Hometown Heroes Coffee was the greatest Internet Pub in the USA. Thanks to Daniel Snyder this was a welcoming place for all, young and old. We need pubs like this where people can meet, chat and relax. As a historian I picked up quite a bit of local history from visitors. We really miss this place. It went out of businessbecause of not enough patronage and high rent. But the memories will remain of the good food and friendly staff. See the full story with pictures at do**good**forall.today

Back to the history and years of 2000 and up happenings: Governments expanded adding many high paying jobs, paying over 100,000 a year while laying off workers. The working class became the forgotten class. School districts were paying excessive salaries, to CEOs (some 100-300,000) yet demanding more taxes from citizens half of which were near the poverty line. Michigan lost over 600,000 jobs. Business was outsourced to overseas. Corporate profits were put ahead of families. By 2007 Warren's unemployment was the worst in the nation. Many lost their homes. **Congress refused to extend unemployment benefits while they gave themselves pay raises and wasted billions.** Congress should be required to abide by all laws they pass not be exempted. They bailed out the rich bankers and allowed China to buy the debt. China used the interest to support its growing military and may surpass us as a world power. The bankers raised our interest rates. Parts of our Bill of Rights were nullified by the Patriot Act of 2001 and 2006 allowing the Government to search anyone's home. The Military Commissions Act of 2006 allowed anyone to be arrested and took away your right to a hearing and trial under some conditions.

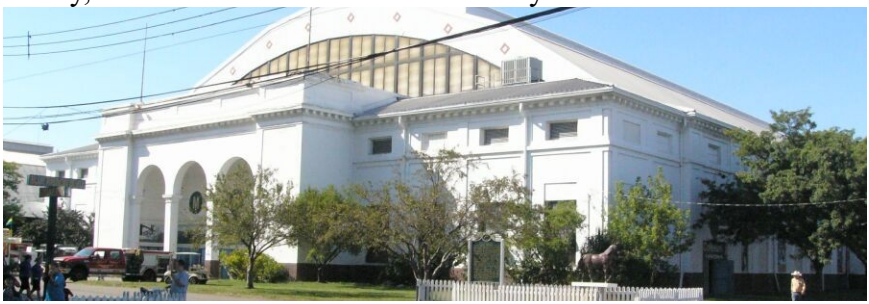
Many were unemployed. Many moved out of the state. There were anti-corporate-greed demonstrations nationwide. By 2011 over half of the residents of Warren were near the poverty line & 38% of homeowners were in big trouble. The working class became the forgotten class and for many now the lower class. Many families were now living with relatives or homeless. Meanwhile the higher ups managed to get big raises. The greedy 1% had stolen most of the wealth and good jobs from the working class. This was not the American dream. We worked and expected that our children would have a better way of life. For thousands this will not happen. NSA recorded everyone's telephone and Internet usage and all financial transactions. Big government and business databases were used to keep track of everyone and almost everything. Almost everything known about you was recorded in them and pictures from cameras in public areas, streets and from drones as small as insects with face recognition programs. Speeding tickets can be issued from remote freeway cameras showing driver's face and license plate. RFID chips secretly placed in almost everything will soon allow almost everyone and everything to be tracked and located by sensors placed in public places. You can get chips with transponders to track your dog, car, kids, & spouse. Mu chips will mean faster checkouts at stores and inventory, but also the elimination of more jobs, less privacy and worse possibly allow Big Brothers to take over by being able to track anyone who speaks up against them and to turn off access to paperless money. Already paperless money reigned supreme. Could social control by Big Brothers potentially happen? This is not fiction it is happening in China.. Check this out for yourself. Do a Google search on mu chip, RFID, face recognition and micro drones. See the movie “Enemy of the State.” Go look at the facts on all of the above. See for yourself. Look at the Big Picture. Government should look out for the health, safety and well being of all citizens not just its employees and congress. Many felt that the federal government had gotten too big and was wasting too much money.

The Bots are coming! Computers have increased in power and decreased in size so that soon they will fit into a pair of glasses or be worn on our wrists or on clothing and may be implanted in our bodies to provide us with additional capabilities and information. Bots can and will replace "experts" in many fields and many white collar executive positions. Expert projections tell us to expect to see 60% of current jobs automated by bots and robots in the next decade and upwards of 90% within 60 years. Very few new jobs will be created so this is going to free up humans from having to go to work. But millions will be put out of work with no new jobs created. Welfare is not a long term option so what can we do. Here is a solution. Set up solar panels nationwide (using prisoner labor at no additional cost) then give every citizen an equal financial credit from the huge profit from selling this free energy. Make each citizen's share a basic income. Make the greedy corporations pay for this sun energy, not sell it. There is ample solar energy that hits the USA every day to provide much more than we need even including giving us free fuel for everyone's electric cars. Tell congress to start making this happen. But the US Congress no longer represents the American People, rather they work for corporations and have been accepting millions in bribes from corporations. (Check it out. It is the dirty secret of Congress.) They should be term limited to one term only, and no special pensions or special health care.

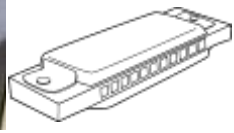
Autonomous cars will drive us or pick up the kids much more safely than human drivers and will talk with other autos. Human drivers kill thousands of innocent humans every year.

The Internet of Things is coming like it or not. "Things" will have computer chips and will "talk" to other things. The refrigerator will tell your smart fone what needs to be ordered from the grocery store and the fone will automatically order those items to be picked up by your autonomous car. Your house will automatically adjust the temperature, lights, music etc. or you can just speak to your house and request it to make changes you want. Your implanted RFID chip will allow you to make purchases without money and will unlock your car or house upon your approach. Paper money is being replaced by electronic money (which might be controlled by Big Brothers.) Very little is now purchased with paper money which is no longer backed by gold or silver and may become nearly worthless as the federal government is so over its head in debt that it can barely keep up its payments to China who bought much of its debt. China now uses our debt payments to finance its military which may surpass the US military. China educates its bright children while the USA has cut education so much that the US kids are actually behind most other countries. In fact the US no longer produces enough engineers to meet its needs and has to import foreigners to fill positions.

Government should be the employer of last resort for those out of work. Many private organizations are gathering info (often wrong) about you and offering it for sale to anyone including foreigners and it can be used against you. Thousands of children do not have adequate food, dental, medical care, and quality education. By 2012 in Warren record numbers of families (5,000 said J Fouts) faced foreclosure. There were also record numbers of homeless with children. Greedy bankers did not work with families. Warren 2010 census population was 134,056. People from Detroit and many foreign immigrants were moving in. There is constant change in Warren with new people, buildings and businesses replacing old ones. Let us work for fair positive change to help all families have a decent standard of living. Support creation of jobs for all now. Get informed, Be vigilant and Be prepared. We can learn from history and apply it to the future for a better life for all. Perhaps we can have again Clean Air, Jobs for All, and a Kind Caring Spirit of Community. But we need to learn from history. We should do the most good for all. See **dogoodforall.today** for much more including nice videos and music. Sincerely, humble historian Professor Wesley E. Arnold MA.



See my free DVD on Warren Area History or visit **dogoodforall.today** to see thousands of pictures and pages including The Michigan State Fair its animals, exhibits buildings and the Boblo boat videos showing outside and even the running engine room, 800 of he best old music pieces of the past and Notables in our Who's Who and much more.



Music may be the universal language of mankind. Old Time Music was an enjoyable part of our history. Forms of Music were used for important signaling and in managing wildlife. Horns, whistles, drums, bells could be used to communicate over distances. Mostly for enjoyment and inspiration. People have been inspired to think, to write, to take action, to go into battle or go to sleep because of music. It is a transporter of local and national culture that gives much pleasure. The most common instruments used by 1800s farmers were: horns from cattle, flutes, whistles, fifes, drums, fiddles, concertinas, ocarinas, bells and the king of instruments the organ. Many simple instruments were hand made. They were played at social events like family visitations, holidays, fairs, barn raisings, quilting bees, harvesting bees, "singins," sugar hops for young people to meet etc. Sometimes a local store would encourage a musician to sit nearby and play. Beginning in the 1920s music was most widely spread and listened to by radio and after 1947 by TV then by Internet.

Families who really cherished music also bought instruments and hired tutors. Such as Ms. Wright in Warren Village. Homer Hazelton who led the 1929 Busch Band. St Clement school had a band and even played music in his drug store on his Hammond organ. My mother played in a community band in 1940s. Alton C Powell was a band leader in Center Line in 1940s-50s. Jeff Cotter was a band director at Warren consolidated and later led the Warren Symphony.

See http://dogoodforall.today are links to hearable videos of many of the most popular pieces. See the main article page 1353.

Meet Baxter your replacement who works for nothing and never takes a vacation.

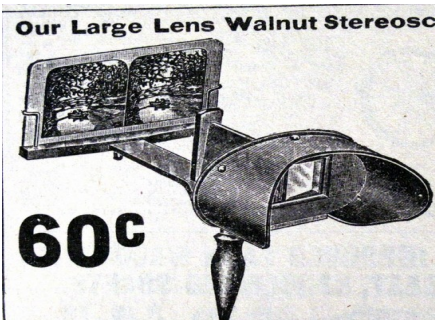
I teach technology at a college. My textbooks started saying 4 years ago that 60% of most jobs will replaced by automation soon. It is happening now. Thousands are losing their jobs but very few new jobs are being created. Machines will be doing most retail jobs. Computers with AI will be replacing many lawyers, doctors, technicians, and other skilled workers. Our local GM factory had 3000 workers, now 200. Work is now being done by robots.[125] Watson an IBM mainframe computer is now the best practicing doctor in the world. That is the one who beat the smart humans in Jeopardy. A Pharmacy machine in California has filled over 200 thousand prescriptions without an error, while also checking drug interactions. It works 24/7 without pay. Your local fast food is putting in kiosks that take orders and make change and putting in machines to do most of the human work. Retail will have robots putting up stock. Lowes even has a robot that roams the aisles helping[126] customers. It can answer hardware questions because it has been given the knowledge of many experienced hardware people. It can tell you whether the item you show it is in the store and how many are in the inventory and the price. Retail clerks are going to be laid off by the thousands. Autonomous vehicles will be putting millions of drivers out of work. Delivery vehicles with compartments that open only to the credit card used to place the order. ATMs have already replaced millions of tellers. Bots are now writing newspaper and magazine articles. Look at the video "Humans Need Not Apply" [127] General purpose robots that can be told or shown how to do a job will be replacing thousands of blue collar jobs without creating many new jobs. Lawn mowing, carpet cleaning, dishwashing, burger flipping, planting, crop picking, painting, stocking, medical coding, brick laying robots are already a reality. But what do we do with the thousands out of work with very few jobs to be found?

Education was better in old days even with overcrowded class rooms & lack of good books. Students learned better and learned more than today. They did math in their heads learned history, geography, civics. Knew Bill of Rights, Constitution. Schools were non existent for most of the history of our area. People could not read or write. kids had to help for the family to survive. They learned survival skills from their parents. Schoolmasters had to be able to make quill pens, and to defeat the largest boy in the class in a fist fight and maintain discipline. The birch rod was a needed part of his equipment. Women were also used because they would work for less money, but had to be courageous to teach(Willis Dunbar 284).The first known school in Warren was a split log school house the farmers built near Chicago and Ryan roads. This school house was also used for a church for Methodist and Baptist groups. There were few books. Here are years older schools were built. See my "Most Comprehensive" archive for more details. North school 1859. West school 1894 burned down 1931 replaced with present red brick building. South school 1866. East school before 1875. Schemm School 186?. O'Leary School 1865. Bunert 1875. Plunkett school 1869. St Clement School before 1868. All taught grades 1-8. Larger 2 room Bunert school 1927. Murthumn High 1926. Busch High 1921. Lincoln 1921. Harding 1925. Ellis 1926. Ladd 1941. Groesbeck, Mckinley, Macomb Park 1928. Victory 1942. Charwood 6 room 1944. Miller 1950. Peck 1961. CLHS 1962. Teachers were given repressive rules to live by: May not have company of men, Must be home by 8 pm, May not ride in a carriage or auto with any man, May not smoke or drink, (continued on next page)

Must not loiter in ice-cream stores, May not leave town without permission, Must not dress in bright colors, Must wear at least two petticoats, No makeup, Must sweep and scrub classroom floor, Must build wood fire at 7 am, Must not get married. Must be able to survive on $75 a month and buy all children's school supplies out of that. Today we have better school buildings but the education that students get varies widely. Many students are more interested in other things and not doing their best to learn. So lessons get dumbed down and teachers have to spend more time on discipline issues. Disruptive kids get more attention and the good students get less attention. Teachers are not allowed to discipline students now days and the students know they can get away with almost anything that in the 1950s they would feel the principals paddle sting for. Only a small part of the school day is spent in actual learning. Students are in general not held responsible for learning. Final exams need to required. Schools today graduate students who are below average even of those in 3rd world countries in reading, science, math and other topics. Many can't make change without a calculator and don't know even basic knowledge taught in the 1800s such as basic math, history, civics, geography, and important health and safety. Many are lacking in needed modern technical knowledge. Education has been given a back seat in this country and other countries are passing us up. As a college professor I see kids daily who are unprepared for college and life. It is not the teacher's fault rather students and parents not taking responsibility and action and lack of funding and standards, and failure to put priority on education. We need to improve and provide education including occupational training for all. Educational texts should be on school and library websites available by free WiFi. Eliminate heavy, expensive, out of date books.

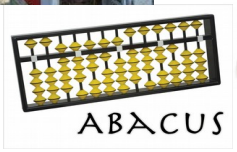
CAN YOU PASS The 8TH GRADE FINAL Essay EXAM of 1890? Using correct spelling, grammar and good handwriting. No notes. All from your own memory. U.S. History: Name the parts of the Bill of Rights and explain thr rights. Relate the causes and results of the Revolutionary War. Describe three of the most prominent battles of the Rebellion. Tell what you can of the history of Michigan. Who were the following: Morse, Whitney, Fulton, Bell, Lincoln, Penn, and Howe? Name events connected with the following dates: 1607, 1620, 1800, 1849, and 1865? Geography Name each of the states in the USA and Europe & their capitals. How do you account for the extremes of climate in Michigan? Describe the mountains of N America. What is climate, what factors influence it? Describe the following: Monrovia, Odessa, Denver, Yukon, Manitoba, Hecla, St. Helena, Orinoco. Name and locate the principal trade centers of the U.S. Why is the Atlantic Coast colder than the Pacific in the same latitude? Give the inclination of the earth and describe its movements. Arithmetic: Name & define the Fundamental Rules of Arithmetic. 2. A wagon box is 2 ft. deep, 10 feet long, and 3 ft. wide. How many bushels of wheat will it hold? 3. If a load of wheat weighs 3942 lbs., what is it worth at 50cts. per bu, deducting 1050 lbs. for tare? 4. District No. 1 has a valuation of $35,000. What is the necessary levy to carry on a school seven months at $50 per month, and have $104 for incidentals? 5. Find cost of 6720 lbs. coal at $6.00 per ton. 6. Find the interest of $512.60 for 8 months and 18 days at 7 percent. 7. What is the cost of 40 boards 12 inches wide and 16 ft. long at $.20 per inch? 8. Find bank discount on $300 for 90 days (no grace) at 10 percent. 9. What is the cost of a square farm at $15 per acre, the distance around which is 640 rods? Write a Bank Check, Promissory Note, and a Receipt.
Grammar: Give nine rules for the use of Capital Letters. 2. Name the Parts of Speech and define those that have no modifications. 3. Define Verse, Stanza and Paragraph. 4. What are the Principal Parts of a verb? Give Principal Parts of do, lie, lay and run. 5. Define Case, Illustrate each Case. 6. What is Punctuation? Give rules for its principal marks 1. Give two rules for spelling words with final 'e'. Name two exceptions under each rule. 2. Give two uses of silent letters in spelling. Illustrate each. 3. Define the following prefixes and use in connection with a word: Bi, dis, mis, pre, semi, post, non, inter, mono, super. 4. Use the following correctly in sentences, Cite, site, sight, fane, fain, feign, vane, vain, vein, raze, raise, rays. 5. Write 10 words frequently mispronounced & indicate pronunciation by use of diacritical marks and syllabication. Civics: Describe the State and Federal Governments of the USA. Give a detailed breakdown of the three branches of each. Explain what laws are for and how and why they are enforced. List current community, federal and world issues and your ideas on how they can be solved.

The 1928 Center Line Men's Club gathered books. Three women formed the Warren Community Library and housed in in the parlor of the Zorn house. Both libraries grew. The library plan placed a local library within 1 ½ miles of every home (walking distance) so children would have access to books. Soon we had Center Line, Whitman, Guest, Burnette, Busch, Miller. Now the Warren Library has over 267,800 items, Center Line 40,000, Macomb College 143,000 items and Internet, equivalent of millions of free books. This means that the you have much better access to the knowledge that has been published than in the past. These libraries also include a lot of entertainment media which are lacking in scholastic and moral content but are what the public wants. Much of the public is in the entertainment culture lifestyle. Not everything is or will be on the Internet. And there is still no substitute for curling up with a good book. This is still a wonderful needed, educational experience for children. Libraries and schools should make available video theater goggles with stereo sound that can simulate full screen Imax screens. How better for a student to learn about dinosaurs than to go on a virtual field trip to see videos about them. All this could be done with goggles and stereo head phones plugged into an inexpensive computer. This combination can also replace heavy expensive limited textbooks children have had to lug to and from school so children can learn at their own pace both at home and at school without having to carry heavy books. Many of us feel educational texts and materials should be placed on library, school and college websites and made freely available rather than have to spend hundreds on heavy expensive limited out of date text books. Below is old time 3D Stereoscope and modern 3D slide viewer.



Which of these did you use?

pager



IBM announces the new 5100 Portable Computer

A compact problem-solving aid for engineers, statisticians, scientists and financial and business analysts.

Since the 1960s what has made our life better?
Scientific knowledge based on research to prevent and cure illnesses and improve our lives. Improved Medical, Dental care, and medicines.

Scientific knowledge that drives engineering and frees us from being the slaves of superstition, myths and other untruths.

Internet and the World Wide Web with billions of pages of free information where one is able to search, find, provide information on almost any topic and shop finding bargains from bigger selection, better prices. Millions of Free books and low prices on used books. Also online education, meetings, faster E-Mail, pictures.

Wikipedia world's biggest Encyclopedia, most up to date, and accurate with over millions of articles.

Faster cooking by microwave. Fast Food with drive thru..

Notebook & tablet solid state inexpensive computers like Winbook. 2 USB ports, HDMI to use TV screen, memory cards. All for $99.

Wrinkle and dirt resistant no iron clothing easier to clean.

Low wattage LED lights 10 year life, Free pollution free Solar Power, and rechargeable batteries.

Better appliances. Cars that last years longer. Fast train tubes.

Plastics as containers, parts and objects printable at home. Cell phone technology.

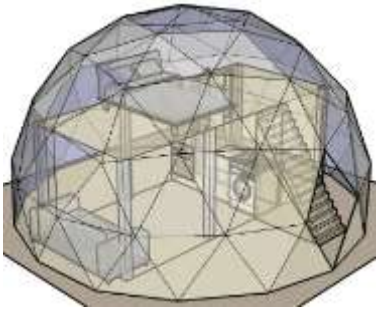
RFID chips for safer food and identification. Also GPS. Big Brother watching criminals. Household robots, soon police robots to enforce law, maintain the peace and kill terrorists, replace soldiers.

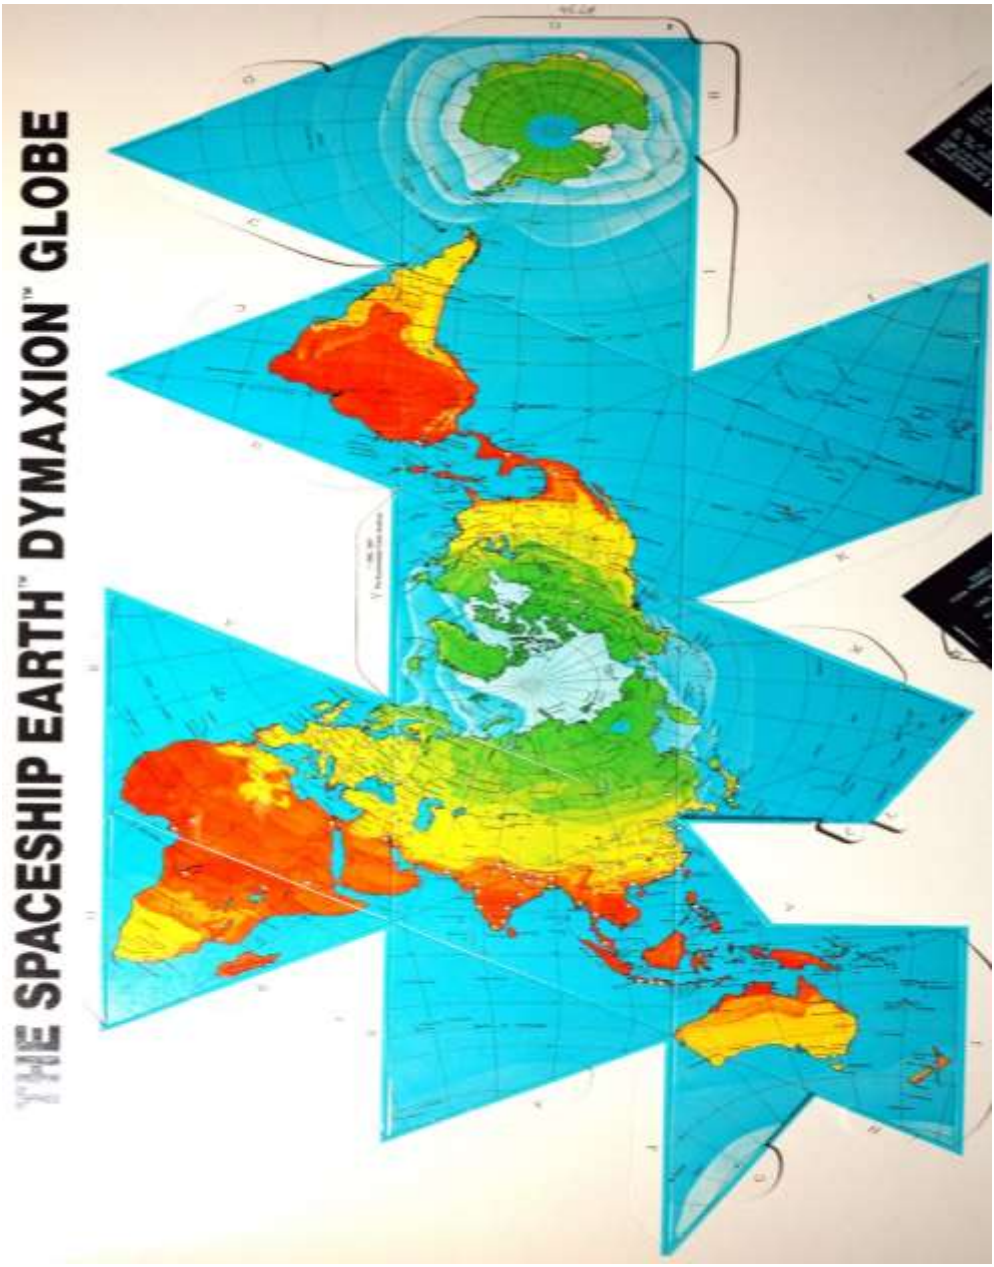
Why not Create a Better Future.

People looked at history and learned from it, used their imagination and science and created better things like cures for diseases, smart fones, fast weather proof subways that can get you within a block of a destination and fold up sit down scooters that can easily get you the rest of the way. (some cities have them for rent by the minute) Those things have already been created we just need to make it happen here. Big machines can do the hard work of digging the tunnels and creating the cement walls. We have thousands of nonviolent people in prisons who could be put to this public service work and learn job skills in the process which they can use when they get released allowing them to become self-sufficient citizens. Subways are more efficient, faster, safer, run in all weather and no longer require drivers so are less expensive to run. Small subway cars are called pods and you can tell it where you want to go so you don't even need to transfer cars. You can read, watch videos or listen to your choice of music instead of fighting traffic or dealing with parking hassles. It is a better, safer and faster way to travel. Let's make it happen. Wonderful shopping and office malls can also be placed underground where the temperature is even without need for air or heating. No ice, snow, rain, wind or excessive heat or cold. All could be easily accessible to seniors and disabled. And after building, are inexpensive to maintain.

Geodesic Domes offer great possibilities. They can also be made extremely strong but very light weight.[122] They can be made tornado and hurricane proof. We may eventually use super strong graphene which is about 100 times stronger than the strongest steel but lighter and thinner than the thinnest sheet of plastic.[123] New advances in Solar panel material for example using Perovskite will allow them to be transparent and used in windows or Geodesic Domes. Thin and light weight, much less expensive, printed by an ink jet printer with layering will allow the capture of most of the light spectrum greatly improving efficiency. These will be able to generate free energy from light. Stick them to present windows.

Light weight domes could be used to grow food day and night in cities on rooftops. Local food is better quality food no preservatives and cheaper as no shipping. Is dependable as is a known source.





World map that can be cut out and folded into a globe. Climate: Green is cold, red is hot, yellow temperate. A bigger one is on page 251 in Most Comprehensive book.

Learning from history can prepare us for the future. Science is the best method to find how, why and what. Basically, it is looking for truth not uneducated opinions. Computers and humans need actual and factual information. If garbage is put in garbage comes out. How does one get good information? First be skeptical don't believe everything you hear and see at face value. The world is full of half truths and misinformation. Ask enough questions to get good understanding. Then verify things with reliable sources. Make sure it is up to date. Then we ask how to apply this knowledge to help all of mankind. Humans are Humane monsters aren't.

What is the most efficient transportation? Electric cars have been proven to be more efficient and need much less maintenance, but we don't have charging stations around the country. The answer for the short time is hybrids or solar charging. A small gasoline engine keeps the batteries charged. The batteries also charge when the car brakes, so it is very efficient. Electric scooters and golf cart like vehicles have also provided very efficient. Some scooters fold up into luggage.

FREE FUEL

Charge these up for free with home solar panels SOLAR POWER is FREE, inexhaustible, clean, panels are guaranteed for 25 years. DO IT YOURSELF for under $99. to charge fones, have lights, run tablet computer. To run laptop and TV add $100 for bigger power unit. Everything is easy just set panel in window and plug in to battery-power unit. Only two items to buy Solar panel and battery-power unit which includes battery, charge controller and inverter for AC. Panels can also be outside on a rack made of cheap PVC pipe with zip ties to fasten panels.

Optional light weight flexible panels

On 9-11 2001 nearly 3000 innocent Americans died in the 2nd WTC attack. The 1st was 2/26/93 also by Islamists killed 6 injured 1000. There have been many more (Times Square bomber, under-wear bomber over Detroit, hundreds of us could have been killed. shoe bomber, Boston Marathon bombers, beheadings of innocent Americans. Daniel Pearl an American journalist, James Foley,) dozens of humanitarian workers helping to save lives brutally killed often their heads cut off. Now mall bombings are threatened here and have already happened in other parts of the world by jihadis. Why have there been hundreds of suicide attacks since 9-11? See http://www.thereligionofpeace.com/ **They're here. Stop the killing.** We Support The American Way of Life which promotes: Life, Liberty, Justice and the pursuit of Happiness for all. **Promotes: use of scientific knowledge, research and discussion for solving problems rather than violence. Promotes: Love, Kindness, helping each other,** creating and sharing resources. And discourages violence, greed, hate, ignorance, apathy **by the expectation that no one should bring harm to another by their actions or inaction. Humans are Humane monsters aren't. It is wrong to kill innocent people.** This threat is real. Facts are facts. At http://dogoodforall.today
See The American Legion warning on stealth jihad. Because the Saudis are part owners of our media you have not been told many facts due to "political correctness" This is current history affecting our lives now and continues to be a real potential threat.

Paul G. Hazen Center Line Michigan

Freedom Isn't Free. Many paid with their lives or fought for yours. Remember them. Help stop censorship. Promote freedom of speech and of media. Keep informed as there are others who want to take away your freedom. Don't allow them to pass laws that limit free speech such as anti hate speech laws. It seems good but is a ruse that allows anti freedom groups to grow. Some countries in Europe made that mistake and speakers have been fined for speaking the truth or criticizing terrorist ideology.

See the stories on these and hundreds of our Local Heroes and Notables in our Who's Who of Center Line, Warren and local Michigan. Also read about living notables like our hero Lawrence Snow who has earned more medals than anyone we know. All at http://dogoodforall.today

Please stop the killing, abuse of women and girls, servitude and oppression. **Too many Thousands of our YOUNG PEOPLE have been murdered NEEDLESSLY. Since 2001 over 10,000 Americans have been killed by jihadies with 56,422 Americans wounded.[170]** There have been thousands of attacks by Islamic Terrorists (worldwide) since 9-11 which was the second attack on the WTC. The first was on 2/26/1993 when 1000 were injured. Why? The Quran orders them to kill non-believers in many[120] verses. Verify it for your yourself. Here are a few: 2:189-191, 9:5, 9:11-14, 9:57, 47:4, 9:29, 3:84, 66:7, 8:66, 2:216, 4:89, 8:60, fight 2:193, 2:222 and more**. You can verify this yourself.** They are promised to go to heaven if they die in an attack. And this has been an accepted[118] practice started by their founder and approved and continued by their leadership for 1400 years, continuing into the present. This is why there are so many suicide attacks and killings. For more information and list of actual attacks see http://thereligionofpeace.com We have proof of many killings and abuse of women and girls.[119] And increasing numbers of attacks on Americans and innocent people in the USA and around the world by jihadis.[2019] Facts are facts.

Please stop the killing, abuse of women and girls, servitude and oppression.

Thomas Jefferson said "When governments fear the people there is liberty. When the people fear the government there is tyranny. The strongest reason for people to retain the right to keep and bear arms is, as a last resort, to protect themselves against tyranny in government. And most bad government is the result of too much government." Jefferson had many good ideas.

Learning Questions. Why can't most young people tell you who or why we fought in WWII? Why is our government wasting billions in other countries and giving them aid, and giving billions in subsidies to already rich corporations, when Americans are hurting? There have been thousands of American casualties overseas since 9-11. Was Iraq-Afghanistan worth even one American life? Why do almost all of congress's actions favor corporate interests and not working Americans? Why has the middle class become the forgotten class? Why have many Americans become rich but most can't afford health care, and a good home and car? Why is congress favoring the corporations and wealthy but ignoring the rest of us? Why is the education of your young people below that of many in 3rd world countries? Why are young people graduated often without knowledge to do basic math, science and even basic living and knowledge necessary for our modern world? Why are we now unprepared and trained to defend our country? Very dangerous.

Huge changes in the workplace are coming soon. Automation will soon replace 60% of current jobs, including many skilled and professional jobs. Machines are now doing heavy labor. Computers with Artificial Intelligence (Bots) will soon replace humans in most jobs because they work 24-7 without pay or time off and are cheaper for employers than humans. Soon general purpose robots with two arms and AI will learn 90% of most jobs well enough to replace millions of humans in jobs even doctors, lawyers, artists, writers, drivers, pharmacists, engineers, lawyers, brick layers, tunnel diggers etc. And very few new jobs will be created. Those millions of unemployed people will need at least a basic income because there will be too many for welfare. We can create basic income for all by installing solar panels all over (creating jobs) then put the profit from the millions of dollars in free solar energy that arrives every day for free from the sun, into a public fund and divide it up with every citizen getting an equal share. This gives everyone basic income and they can still work for more money. It is a win win for all. See **Important Technology** at dogoodforall.today
